RAM ACADEMY: DIFFERENT BY DESIGN

Dear MUSD Families,

Not every path to graduation looks the same.

RAM Academy is a credit recovery program designed to get students back on track to graduate, with smaller classes and personalized graduation plans focused on the credits each student needs.

The numbers are impressive:

- RAM students recover an average of 8 credits
- Approximately 60 students graduate each year

For students who have fallen behind, that progress can make the difference between leaving high school without a diploma and getting across the finish line.

Our goal never changes: **Every student graduates.**

RAM Academy is funded through the MUSD voter-approved budget override.

Thank you for choosing MUSD.

Sincerely,

Dr. Tracey Lopeman, Superintendent
Maricopa Unified School District
