2026/27 Student Leadership and ASB

Course Name: Student Leadership and ASB

Course Logistics: Miss Mueller
Megan.mueller@sanpasqualunion.net
(760) 745-4931 ext. 1801
Room 801

Course Description:

ASB is a hands-on learning experience where students participate in planning and executing school-wide events and activities. We will focus on the importance of developing leadership skills, promoting teamwork, and encouraging responsibility and engagement school-wide.

Learning Objectives/Outcomes:

Upon completion of this course, the student will be able to:

1. Promote well-being and a strong sense of community via school spirit and positive influence.
2. Promote the ideals of a student democracy.
3. Encourage a sense of professional responsibility and accountability.
4. Effectively utilize the elements of time management and task prioritization.

Materials:

No additional materials aside from basic school supplies will be needed.

Expectations:

- ASB/Leadership is not a "traditional" learning environment. We utilize a hands-on learning approach. Students in the class take leadership roles to not only plan all aspects of our award-winning activities program, but also learn valuable leadership, life, and executive skills. Our curriculum is aligned with CADA/CASL leadership standards that focus on communication, personal/social & civic responsibilities, government, service learning, and business, as well as follow the CADA/CASL Roadmap to improved school culture and climate. Each week we do planning and time management together as a whole class, we have leadership skill lessons and presentations by students, and students rotate through jobs that center around the standards listed above. Incorporated throughout all this, student plan and run our school spirit days, lunchtime activities, school dances, fundraisers, service learning projects, and much more. This class does have a demanding

time commitment, but we do not have traditional homework or tests. It is a project-based curriculum where students are graded on participation and meeting standards.

Grading Policy/Rubric:

Students will earn a letter grade that is calculated as follows:

- Participation: 25%
- Classwork: 25%
- Final Projects: 50%

Behavioral Expectations

Students will engage in a variety of exploratory content that will serve to connect and unite all students at San Pasqual Union Elementary School. Offensive comments, aggressive actions, and otherwise hateful speech will not be tolerated in the classroom. Any behavior that does not encourage a welcoming classroom environment and community will be dealt with accordingly.

I have read and understand the course syllabus.
