

Ellicottville Central School District
2026–2027 Board of Education Goals & Priorities

Building Culture	Creative Solutions	Layered Communications
Ensure students, staff, families, and community members feel welcomed, valued, and connected.	Explore innovative ways to manage expenses, maximize resources, and respond to changing state aid and financial realities.	Share information through newsletters, email, website, social media, meetings, and face-to-face conversations.
Celebrate accomplishments, recognize contributions, and highlight the many things that make ECS special.	Explore creative ways to increase enrollment, attract families, and expand opportunities for students.	Provide clear, timely, accurate, and consistent information across the district.
Strengthen school spirit, traditions, community involvement, and pride in being an Ellicottville Eagle.	Seek partnerships, shared services, grants, and community resources that enhance opportunities while using resources responsibly.	Create meaningful opportunities to listen, gather feedback, answer questions, and understand different perspectives.
Foster a culture of kindness, respect, teamwork, high expectations, and shared responsibility.	Challenge “the way we have always done it” and consider new approaches that support students and strengthen the district.	Keep families and the greater Ellicottville community informed and engaged in our schools
