

RECF Robotics Hackathon

CAL-MSCS Local CoP

Join us at the FabLab on the SJCOE campus for a collaborative CAL-MSCS Local Community of Practice (CoP) designed to equip educators with hands-on experience in competition robotics. Participants will explore how California's computer science standards connect to RECF robotics.

This session will introduce foundational engineering concepts and the VEXcode programming language before educators dive in to build, code, and compete with their own robots in an engaging, collaborative environment. Register for free today and gain practical experience with competition robotics tools you can bring back to your classroom!

Sept. 14, 2026

5 P.M. - 7 P.M.

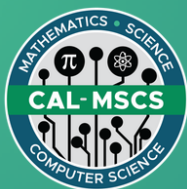

FabLab
2911 Transworld Dr.
Stockton, CA

Participants will
receive a \$125
stipend
