

An Inclusive Learning Community Where Every Student Belongs

At CESJDS, we believe every child deserves to learn, grow, and thrive as a valued member of our school community.

Sulam@JDS is an inclusive educational program for students with mild to moderate learning differences. Built on the shared expertise of CESJDS and Sulam, the program combines individualized support with a rigorous academic experience, while students participate fully in the academic, social, and Jewish life of CESJDS.

Our Approach

Using the framework of Universal Design for Learning (UDL), teachers create flexible learning environments that provide students with the support—and the challenge—they need to succeed.

Who We Serve

Students in Kindergarten through Grade 5 with mild to moderate learning differences who benefit from specialized support within a general education classroom.
