

AI Student Framework

Goal: To support the Clint ISD vision, "Together.. We Build Tomorrow," this framework guides the safe, ethnical, and equitable integration of Artificial Intelligence across our district. We commit to a human-centered approach where AI tools supplement instruction, streamline operations, and foster critical thinking, while strictly adhering to data security standards and upholding academic honesty.

When students in Clint ISD are interacting with AI, they are...				
Primary Use	Leveraging intentional digital tools to achieve specific learning and developmental milestones.			
Grade-Level Focus	Early Education Pre K - 2nd	Elementary School 2nd-5th	Middle School 6th-8th	High School 9th-12th
Student Experiences and Interactions	Focused on foundational exploration-such as co-creating classrooms	Focus on engagement-such as story starters utilizing Curipod or visual vocabulary design in Canva.	Focused on investigation-such as data set exploration and guided summarization in Wayground.	Focused on academic readiness- such as research support, brainstorming, and deep discussions on AI ethics through Google Gemini or Google Notebook.
Each grade level skills builds upon the previous. Teachers may scaffold down to provide more teacher-directed support.
