

Part 2 – Household Contact Information

It is very important that you review all of your information! Failure to do so may mean the inability to receive important district information and may also limit your access to your child/children's accounts.

- 1.** Log in to the Parent Portal. Locate the Menu bar on the left and click on "**More**"

- Please click through 'Address Information', 'Demographics', and 'Family Information' to verify your information.
 - If changes are needed, please do so where indicated and hit “Update”.
 - If you make an update, it will need to be processed by the building before you'll see the changes. This could take up to 3-5 business days.
