

PREP Residency Program

The PREP Preservice Residency Program funds school systems and their approved educator preparation program (EPP) partners to implement year-long, paid teacher residencies. Residents engage in deep clinical practice under the supervision of a trained host teacher and earn an enhanced standard teaching certificate. Each resident may generate between \$24,000 and \$39,500, depending on the high-needs and rural factor and the resident's certification area. \$12,000 in funding is provided initially to cover resident and host teacher stipend costs and the remaining success-based upon the candidate attaining the enhanced standard certificate.

PREP Residency Program Year-long paid residencies \$24-\$39.5K per resident (40 residents max.) Two funding streams	
LEA Funding • \$12K Initial funding ◦ \$10K for resident stipend (district must price match \$10K min) ◦ \$2K min for cooperating/host teacher stipend • Up to \$16K Success-Based Funding	EPP Funding • Up to \$11.5K (after resident earns Enhanced Standard Cert and completes 1st year of teaching)
