

BFW - The Practice of Statistics - Starnes & Tabor													
Curriculum Design / 12	Teacher Resources / 12	Student Resources / 9	Technology / 11	Assessment / 8	Rigor and Relevance / 15	Family/Community Resources / 3	Professional Development and Support / 6	Total / 78					
11	11	9	11	8	15	3	6	74	Aligned with CED, good online resources, high-level AP style questions, goes well as an extension to the Intro to Stats book we adopted, sequencing is logical, follows new AP stats standards well, amazing online homework bank of questions, great online platform, tons of teacher resources

Stats Modeling the World - Buck, Bullard, Velleman, Deveaux													
Curriculum Design / 12	Teacher Resources / 12	Student Resources / 9	Technology / 11	Assessment / 8	Rigor and Relevance / 15	Family/Community Resources / 3	Professional Development and Support / 6	Total / 78					
9	10	6	10	7	14	2	4	62	cover all of the AP standards. Waiting until last module to do linear regression + R2 is an interesting choice. Organization of material isn't great. Great book but online platform seems more difficult. Units don't match CED exactly so there would need to be some adjusting.

AP Stats - McGraw Hill													
Curriculum Design / 12	Teacher Resources / 12	Student Resources / 9	Technology / 11	Assessment / 8	Rigor and Relevance / 15	Family/Community Resources / 3	Professional Development and Support / 6	Total / 78					
11	10	6	9	8	15	2	6	67	has good practice for AP writing, ordering is well done. Digital tools lacking a bit, could be better. Great teacher resources and case studies. Great alignment to CED, good structure. Overall, great curriculum but the online stuff seems a bit behind the other books reviewed.
