

Dear Families,

Welcome back to the 2026-2027 School Year!

Briarcliff Middle School and Todd Elementary School have joined the National School Lunch Program for the 2026-2027 school year, allowing all students in those buildings to receive universal free meals. Although each student in these buildings is eligible to receive one free complete meal each day, we strongly encourage families to complete a Free and Reduced-Price Meal Application. Applying may qualify your household for additional benefits. [Click here for the application.](#)

Even if your student qualified for free or reduced-price meals last school year, that eligibility expires on October 19, 2026. A new application must be submitted each school year.

It is important to note that not all food items are included at no cost. To qualify as a free meal, students must select a complete meal that meets National School Lunch Program requirements. Snacks, certain beverages, additional entrées, and other à la carte items will incur a charge. [Click here for frequently asked questions about what is included in a free meal.](#)

Lunch at Briarcliff High School will cost \$4.75. Families of high school students may apply for free or reduced-price meals using the [application available here](#). Students who qualify will be eligible to receive one free complete meal per day. Additional items purchased separately will incur a charge.

Families with students attending multiple schools should submit one application and list all students in the household on that application.

Please note that meal benefit applications are valid for only one school year and must be renewed annually. Prior-year eligibility expires on October 19, 2026.
