

Bridging the Future

Shaping Tomorrow's Workforce, Together

The future of work is evolving—and so are the opportunities for today's students. Join us for an engaging evening featuring **Dr. David Harrison, President of Columbus State Community College**, along with industry experts participating in a panel discussion. Together, we'll explore the trends transforming Central Ohio's economy and the knowledge, skills, and experiences that will prepare students for success.

Learn how Olentangy Schools is connecting classrooms with careers through innovative partnerships that expand **ACCESS, AWARENESS**, and **UNDERSTANDING** of high-demand industries and future career pathways.

Following the presentation, visit the Olentangy BridgED Partner Showcase, where local business and community partners will share hands-on opportunities, career connections, and educational pathways available to students today.

Whether you're a parent, guardian, student, educator, business leader, or community member, you'll leave with valuable insights into how Olentangy Schools and industry partners are working together to provide **student experiences** and prepare the next generation for the workforce of tomorrow.

Dr. David Harrison,
Event Speaker

Wednesday, September 16 from 6–8PM
