Community Service Form

It is the goal of BNT@W to expose our students to as many community service opportunities as possible. We also recognize the importance of helping students understand the value in serving the community, and we desire to help them make the connection between what they learn in the classroom and how it affects the world around them.

Freshmen, sophomores, juniors, and seniors are required to complete 10 hours of community service by the end of the school year. The community service requirement may be satisfied by participation in either a single activity or a combination of approved activities. Community service opportunities can range from helping an elderly neighbor or relative with chores or errands to volunteering for a local non- profit organization, organizing files, doing mail-outs, or wrapping presents for a special party.

Each student's transcript, regardless of his/her grade level, reflects the total number of community service hours he/she has completed each year. Awards are given to students who have the most community service hours accumulated at the end of each school year. And, remember: Community service hours are a positive addition to those college applications!

Community involvement is critical to success in education. Student participation in community service activities builds an awareness of society and a connection between classroom and real world issues. Service Learning is a method through which students learn about and develop a commitment to addressing needs in their communities.

Definition of Community Service
Community Service is defined as an act or activity performed by an individual without compensation or academic credit, whose time and effort will benefit/aid a person or group of people and is without direct religious or political involvement. A community service activity must conform to the following:

1. Is performed without compensation to the student. Examples: Court-ordered community service, paid work and work receiving academic credit will not be accepted.
2. Results in a service to at least one person other than the student or the student's relative and is generally of benefit to the "community."
3. Political campaigning or work benefiting political organizations or causes directly must be reviewed by administration prior to completion and acceptance.

In order to receive credit for hours of community service completed, students are required to complete a community service form and have it signed by the supervisor at their volunteer site.

Submit one form for each community service project.

Community Service Form
2026-2027

****Please save a copy for your records.**

Student Name		Class of	
Supervisor		Phone	
Date of Service		Hours of Service	
Brief Description of the Service			

Student's statement

I declare that I have completed my community service project and that I have served the number of hours listed above.

Student's Signature Date

Supervisor's statement

I certify that the above named student has successfully completed his/her community service project as indicated above.

Supervisor's Signature Date

Submit one form per community service project.

Submit this form to Mr. Potts. Appropriate documentation may be attached to the form.
