Lease - to - Purchase Program

LEASE PROGRAM: With this program, each regular monthly lease payment of your student's instrument goes towards the purchase price of a new, like new, or used instrument. For instance, if you lease an instrument at \$27 per month, after 10 months you will have \$270 (less sales tax) to use towards the purchase price of an instrument of the type that you are leasing.

INSTRUMENT RETURN: If your student decides to stop playing at anytime, contact us and we will pick up the instrument at your student's school. Once the instrument is returned to our shop, there are no additional payments.

SWITCHING INSTRUMENTS: Anytime the lease contract is current, if the same student needs to switch to another type of instrument or different size instrument (string instruments), no problem: contact us and we'll get your student set up with a different instrument and deliver it to the school. **100%** of the lease credit is transferred to the different instrument.

WEEKLY SCHOOL SERVICE: We provide to you weekly services to your student's school and we have an ongoing relationship with your school's music educators. We pick up and drop off your instruments, repairs, and accessory purchases consistently every week.

This is what sets our instrument lease-to-purchase plan apart from all others:

- 100% credit of lease payments (less sales tax) applied toward purchase of final instrument
- You choose a purchase price at a time and price point that works for you
- You choose to purchase a New, Like New, or Used instrument
