1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Azusa Unified School District used Proposition 28: Arts and Music in Schools (AMS) funds to expand equitable access to high-quality visual and performing arts instruction for all students. At the elementary level, funds were used to provide comprehensive visual and performing arts instruction for every student, from preschool through fifth grade. This expanded programming ensures that all students have regular opportunities to develop creativity, artistic expression, and collaboration skills in the arts as a part of a well-rounded educational experience. Funds also supported the purchase of instructional materials, instruments, supplies, and other resources needed to implement and ensure access to high-quality arts instruction across elementary sites. At the secondary level, Proposition 28 funding expanded visual and performing arts opportunities by establishing new dance and theater programs at both the comprehensive high school and middle school. These programs provide students with additional opportunities to engage in artistic expression, develop performance skills, collaborate with peers, and build confidence through meaningful participation in the arts.
