

Speaker and Amplifier How To

Using the power strip and plug in the speaker. If it does not light up, check that the power is turned on (button is lower right corner).

Next plug in the mic box to the power strip

Speaker and Amplifier How To

The system will not work if the long speaker is not plugged in.

Plug in both stands ensuring they are connected

Speaker and Amplifier How To

Place the long speaker on the arm.

Connect the mic box to the speaker using Line1

Speaker and Amplifier How To

Turn on the mic and unmute it. The power button is toward the bottom of the mic, mute is in the center. If it doesn't work check that the channel on the mic and the mic box matches.

If the mic will not turn on, double check the batteries. It takes AA . There should be some extras in the bag.
