

CAREER & TECHNICAL EDUCATION PROGRAM

Medical Assisting

Build clinical and administrative skills for careers in medical assisting and patient care.

Program Description

The Medical Assisting Services program includes instruction in basic anatomy and physiology, medical terminology, medical law and ethics, patient psychology and communications, medical office procedures, and clinical diagnostic, examination, testing, and treatment procedures. It also prepares students to provide medical office administrative services and perform clinical duties, including patient intake and care, routine diagnostic and recording procedures, pre-examination and examination assistance, and the administration of medications and first aid.
