

6th-8th Grade Music

Dr. Erin Sukhia

sukhia@trinityknights.org

Objectives

In this course, students will **create**, **perform**, and **respond** to music. Goals in music reflect the following **3 National Core Music Standards**

- ✓ Students need to have experiences in **creating** to be successful musicians and to be successful 21st century citizens. Through the process of creating music, students learn the fundamentals for creating and producing whatever they may imagine.
- ✓ Students need to **perform** – as singers, as instrumentalists, and in their lives and future careers. Students experience the journey from practice to performance, developing skills and characteristics like strategic planning and dedication to a goal.
- ✓ Students need to **respond** to music, as well as to their culture, their community, and their colleagues. How to process and respond to one's thoughts and feelings is also essential to becoming a well-rounded person.

Students will also further grow in their **Catholic faith** in music class.

- ✓ Class always begins with prayer, through the singing of the Our Father or praying of the Musician's Prayer.
- ✓ Students will rehearse mass responses and songs to prepare for participation in Catholic masses, as needed.
- ✓ As Christians, we are meant to love God and love our neighbors. This basic tenant informs and helps guide every student and teacher interaction and discipline policy.

Curriculum

6th Grade

This is an MYP IB arts course. Content will be divided into two IB units, each of which end in a final assessment:

1. Elements of Music (Q1/Q2): Students will learn about the elements of music. They will study music terminology, refine their listening and written and verbal response skills, and create digital music that incorporates each musical element. For the final assessment,

students will compose their own original music using Google Chrome Song Maker and will effectively explain how they utilized the elements of music in their final song.

2. Piano (Q3/Q4): Students will learn basic piano playing and performance skills. Students will learn how to play music by ear, read standard musical notation, and play using lead sheet chords. For the final assessment, students will choose a piece of music to perform for a final performance class.

No textbook is required for this course.

7th Grade

This is an MYP IB arts course. Content will be divided into two IB units, each of which end in a final assessment:

1. Composers (Q1/Q2): Students will study classical composers, from early music through 21st century music. They will explore music composition through Flat for Education digital music-making website. The final assessment will involve utilizing their compositional tools to create their own original song showcasing their newly developed compositional skills.
2. Guitar (Q3/Q4): Students will learn basic guitar skills and learn and perform a variety of songs. They will learn how to write a song, using lyrics, song structure, and guitar chords. For this final evaluation, students will compose and perform their own original guitar song.

No textbook is required for this course.

8th Grade

This is an MYP IB arts course. Content will be divided into two IB units, each of which end in a final assessment:

1. Genres of Music (Q1/Q2): Students will study numerous genres of music, including jazz, country, rock, etc. They will explore music composition in each style through the SoundTrap for Education digital music-making website. The final assessment will involve utilizing their compositional tools and knowledge of genres to explore a specific subgenre and compose a song in the style of that subgenre.
2. Advanced Ukulele (Q3/Q4): Students will refine their ukulele performance skills through advanced technique and musicianship. Students will review and expand their ability to interpret ukulele tablature, and perform using lead sheet chords, including more complex strumming and fingerpicking patterns. For the final assessment, students will select and perform an advanced piece that demonstrates technical proficiency and musicality in a final performance class.

No textbook is required for this course.

This curriculum may change slightly based on the needs of the students.

Academic Grading Scale

Students will be graded on their classwork, citizenship, homework, and projects.

Every week:

CITIZENSHIP GRADE (OUT OF 10PTS): Students will earn a grade, up to 10 points, every time they come to music based on their effort and participation.

HOMEWORK GRADE (OUT OF 10PTS): Students will earn a grade up to 10 points every week for completing their written homework reflection. Homework is posted on google classroom at the beginning of every week and due at the end of the week.

As assigned:

CLASSWORK GRADE (OUT OF 10PTS): Students will earn a grade up to 10 points for in-class assignments (Q1/2) or for instrument playing (Q3/4). If absent, students should make up this work by the next music class. Classwork assignments are posted in google classroom.

At the end of Quarter 2 and 4:

IB PROJECTS (OUT OF 100PTS): Students will earn up to 100 points for their final IB assessment. They will be given time in class to work on these projects, but should also work on them at home if needed.

Late Policy for any work in music class:

Up to 1 Week Late: Highest Possible Grade 85%

2 Weeks Late: Highest Possible Grade 75%

3 Weeks Late: Highest Possible Grade 65%

After 3 weeks, student work will not be accepted. The student will receive a 0% F

Powerschool grades will follow the following grading scale:

A: 90-100%

B: 80-89%

C: 70-79%

D: 60-69%

F: Below 60%

Students will also receive an IB report card at the end of Q2 and Q4. Students will be given IB grading rubrics at the start of each music unit. All final unit assessments will count towards both the IB grade and a traditional grade in powerschool.

Conduct Grading Scale

Students are expected to maintain appropriate behavior in the classroom, and music class expectations are clearly communicated and reinforced throughout the year. Inappropriate behavior may result in lower effort/participation grades due to the student not focusing on their work. If behavior interferes with the learning environment for other students, parent contact will be made. Students may earn a 3 or 4 in conduct for repeated inappropriate behavior after parent contact has been made and continued issues remain. Students may additionally earn SBNs or detentions for serious offense and continued behavior problems.

Supplies

Students should bring their headphones, special area binder with paper, and pencil pouch to every music class. Instruments and headphones will be provided in music class. Students are welcome to bring their own headphones or personal instruments to class if desired.

AI Policy

Artificial intelligence can be used as a tool for creating music, but is not necessary and its use is not needed in this music class. AI should never be used as a substitute for effort to complete work independently.

Misuse of AI will be considered cheating. You should never ask AI to solve a question for you and submit the work as your own. Students will find that using AI for these purposes will leave them vastly underprepared for in class assessments. Please refer to the academic honesty policy for questions.

Communication

Google Classroom

Google Classroom is a collaboration tool for teachers and students. Teachers create an online classroom, invite students to the class then create and distribute assignments. Within the Google Classroom students and teachers can have conversations about the assignments and teachers can track the student's progress. This is an organizational tool for the students to see all assignments and to-do lists in one place. Parents are able to receive communication as well to see what the students are working on.

E-mail

The most effective method of communication between teacher and parents is e-mail. Parents should expect to receive a reply from the teacher within 24 hours. Students may confer directly with the teacher to resolve any questions or concerns. Students may use their school-issued email account to communicate, if there is not an opportunity in class.

PowerSchool

Parents and students are responsible for checking PowerSchool on a regular basis to monitor progress. Please bring concerns to the teacher's attention as soon as they appear. Parents and teachers will work together to promote student progress. Questions regarding access to PowerSchool should be directed to the front office.
