

POLICY	420	Page: 1 of 3
SERIES	400	Personnel
SUBJECT	420	Students and Employees with Sexually Transmitted infections and Disease and Certain Other Communicable Diseases and Infectious Conditions
Adopted		February 13, 2001
Revised		March 8, 2005, June 13, 2006, December 9, 2008; March 7, 2017
Reviewed		July 2026

I. PURPOSE

Public concern that students and staff of the school district be able to attend the schools of the district without becoming infected with serious communicable or infectious diseases, requires that the School Board adopt measures effectively responding to health concerns while respecting the rights of all students, employees, and contractors, including those who are so infected. The purpose of this policy is to adopt such measures.

II. GENERAL STATEMENT OF POLICY

A. The school district will take actions to address the risk posed by students or employees with communicable disease based on the nature and extent of the risk and other relevant circumstances, as well as the school district's legal obligations to students and employees under state and federal law.

B. Precautions.

The school district will develop routine procedures for infection control at school and for educating employees about these procedures. The procedures shall be developed through cooperation with health professionals taking into consideration any guidelines of the Department of Education and the Minnesota Department of Health. (These precautionary procedures shall be consistent with the school district's procedures regarding blood-borne pathogens developed pursuant to the school district's employee right to know policy.)

C. Information Sharing.

1. Employee and student health information shall be shared within the school district only with those whose jobs require such information and with those who have a legitimate educational interest (including health and safety) in such information and shall be shared only to the extent required to accomplish legitimate educational goals and to comply with

employees' right to know requirements.

2. Employee and student health data shall be shared outside the school district only in accordance with state and federal law and with the school district's policies on employee and student records and data.

D. Reporting.

If a medical condition of a student or a staff member threatens public health, it must be reported to the Commissioner of Health.

E. Prevention.

The school district shall, with the assistance of the Commissioners of Health and Education, implement a program to prevent and reduce the risk of HIV infection in accordance with Minn. Stat. § 121A.23 which includes:

1. planning materials, guidelines, and other technically accurate and updated information;
2. a comprehensive, developmentally appropriate, technically accurate, and updated curriculum that includes helping students to abstain from sexual activity until marriage;
3. cooperation and coordination among school districts and Service Cooperatives;
4. a targeting of adolescents, especially those who may be at high risk of contracting sexually transmitted diseases and infections, for prevention efforts;
5. involvement of parents and other community members;
6. in-service training for district staff and School Board members;
7. collaboration with state agencies and organizations having a sexually transmitted infection and disease prevention or sexually transmitted infection and disease risk reduction program;
8. collaboration with local community health services, agencies and organizations having a sexually transmitted infection and disease risk reduction program; and
9. participation by state and local student organizations.
10. The program must be consistent with the health and wellness curriculum.
11. The school district may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources including public health funds and

foundations, department professional development funds, federal block grants or other federal or state grants.

F. Vaccination and Screening.

The school district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis screenings in keeping with current state and federal law.
