Program Attendance Expectations

Freeport Cyber is an online program offered in partnership with the Seneca Valley School District and is available to students in grades K–12. Enrollment is completed through the student's home school. While the District values in-person instruction, it recognizes that some students benefit from an online learning environment.

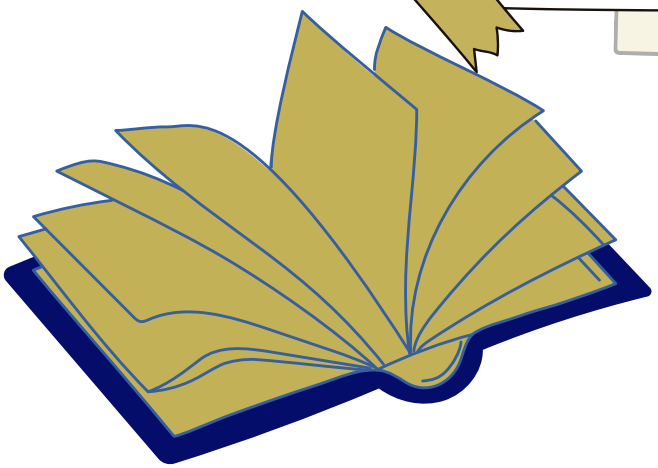

Attendance

To ensure academic success and compliance with state law, regular attendance is essential for all students enrolled in Freeport's Cyber.

Time Committment:

- Minimum of 2.5 hours per cyber class per week
- Students are expected to engage in at least 40 minutes per school day per cyber course

Attendance and participation are required. Cases of habitual non-attendance (truancy) will be addressed in accordance with Freeport School District policy. Ongoing truancy may result in truancy-elimination hearings held either within school building or before the local magistrate

Check the Junior/Senior High Student Handbook for information regarding Activity and Extracurricular Participation

Eyes on Student

In accordance with Pennsylvania law, cyber schools are required to maintain regular, direct contact with students to support attendance, engagement, and student well-being. Schools must ensure that each enrolled student is seen and communicated with in real time at least once per instructional week, provided the week includes three or more instructional days. This requirement is often referred to as having “eyes on students.”

- **Live online instruction during tutoring time with video participation.**
- **Scheduled video check-ins with a teacher or Freeport approved staff member**
- **Other approved real-time interactions where student is visually observed and spoken to**

Logging into course does not meet the eyes on student requirement

This law is intended to verify student attendance and participation. Ensure students are actively engaged in their education. Support student safety and well-being and align cyber school oversight with expectations found in traditional school settings. If a student does not meet the weekly visibility requirement, the school will initiate follow-up actions, which may include additional outreach to the student and family.

Student Safety

During real-time contact, school staff are required to follow Pennsylvania’s mandatory reporting laws if there are concerns related to a student’s safety, health, or welfare.

AI Guidelines

Cheating and AI Policy Recommendation

All offenses will be submitted to home district for evaluation.

- ***First Offense***: Student should receive an automatic zero. Teachers will provide the student with an explanation of why they were flagged for AI/cheating/plagiarism. Student will be able to **retake/re-do** the assignment once.

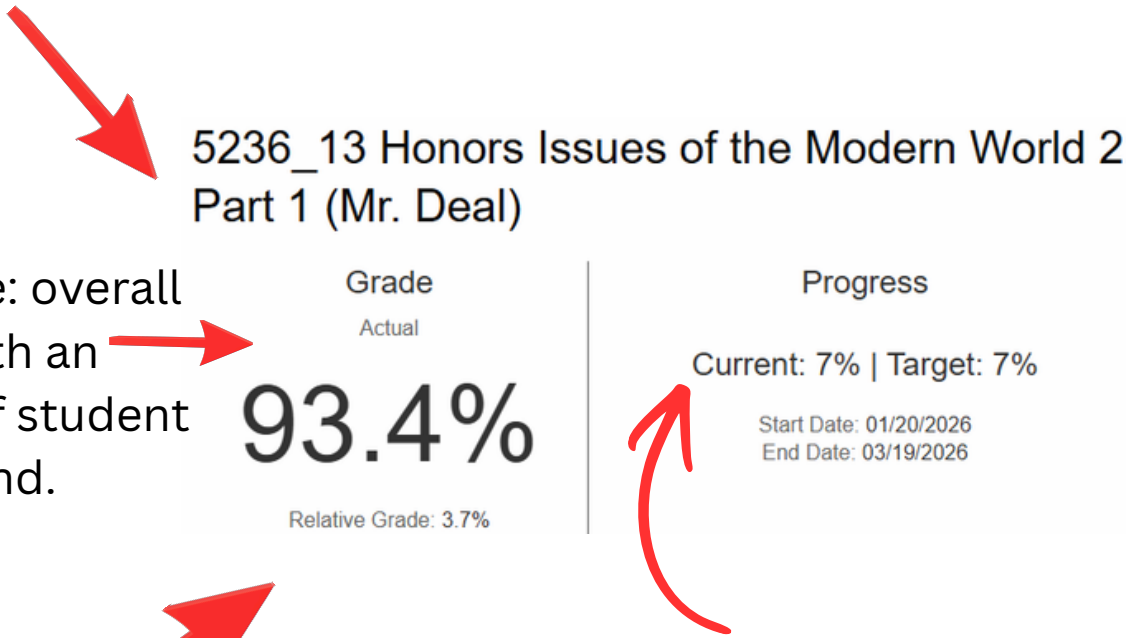

- ***Second Offense***: The student will be given a zero with an explanation of why.

- ***Third Offense and beyond***: Student will receive a zero with an explanation. Teachers at this point should **notify** district administration so that we will be able to enforce disciplinary action if applicable.

Progress Report Email

An email will be sent daily to the provided parent/guardian email address. If you do not receive this, check your junk email and add noreply@communications.imaginelearning.com to your approved sender list in your email.

Course Name

Actual Grade: overall grade with an adjustment if student is behind.

Relative Grade: grade if student stopped working on course. 0% given for all uncompleted work

Current Progress: Percentage of course completed

Target Progress- Percentage of course that should be completed at this time

Start Date: Date course was loaded for student usually coinciding with start of quarter

End Date: The target date for all course work to be completed. End of quarter

Grading Policy

Grades will be taken on tests, homework, class work, and performance tasks. Grades are taken on work that the students have had enough practice on to be assessed. You will know which pieces have been graded because they will have a score at the top of them.

The Grading Scale of the FASD is as follows:

91-100 A

81-90 B

70-80 C

60-69 D

0-59 F

CIRC

Dr. Koch engages students through interactive projects, problem-solving challenges, and robotics. Her goal is to inspire curiosity, foster critical thinking, and equip students with the skills to innovate in a rapidly changing world.

Dr. Koch

Spanish

Learn new words and phrases in a different language with Mrs. Henry! Spanish class is offered live via Teams and streamed at the Drop-In Center.

Mrs. Henry

Counselor Connection

With a caring and supportive approach, lessons with Mrs. Estvanik focus on building confidence, solving problems, and developing positive relationships.

Mrs. Estvanik

Art

Mr. Shorr is our inspiring art teacher who encourages students to explore their creativity and express themselves through a variety of artistic mediums. His passion for the arts and supportive teaching style help students build confidence while having fun with every project!

Mr. Shorr

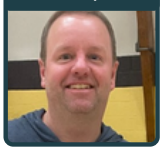

PE

Stay active with movement and exercise! Join in person at the Drop-In Center, or complete activities on your own and log them!

Mr. Wildrick

Mr. Pyle

Ms. Meeder

Music

Mr. Armstrong is our talented music and performing arts teacher who brings creativity, passion, and joy to the virtual stage. He loves helping students find their voice and express themselves through music, movement, and performance!

Mr. Armstrong

Ms. Duggan

Mrs. Duggan is our amazing cyber paraprofessional who brings energy, creativity, and heart to everything she does. A lover of art and cheerleading, she inspires students with her school spirit and provides outstanding support every day!
