UNIONVILLE ELEMENTARY SCHOOL

AUGUST 8, 2026

What a Fantastic First Week!

The first three days of school were a huge success. It has been wonderful seeing our halls filled with smiling faces, high fives, and eager learners. Our students are doing an amazing job settling into their new classroom routines and procedures.

This week, everyone learned and practiced what it means to be Safe, Respectful, and Responsible. Whether in the classroom, on the playground, or in the cafeteria, our students are showing up as great school citizens. Please encourage these positive behavior traits at home. Talking about how to be safe, respectful, and responsible during home routines helps reinforce these important life skills. Your support is greatly appreciated!

Starting this week, we will begin practicing our routine safety drills (such as fire and emergency drills). We practice these throughout the year so all students and staff feel confident, calm, and prepared. Teachers will talk through each drill with students beforehand in a reassuring, age-appropriate way.

Thank you for partnering with us to make this school year wonderful!

Mrs. Jakubik
