

Hempstead Union Free School District 2025-2026 Distraction Free Schools Policy Data Report

Under New York State law, each school district, charter school, and board of cooperative educational services (BOCES) is required to post an annual report on its website addressing enforcement of its distraction-free schools policy during the preceding school year. The initial report must be published by September 1, 2026, with subsequent reports due by September 1 of each year thereafter.

The annual report must present non-identifiable demographic information for students who received disciplinary action for violations of the policy, along with an assessment of any demographic disparities in its enforcement.

When a statistically significant disparate impact is identified, the report must also outline a plan to address and mitigate the disparity. Based on the available enforcement data, which is consistent with the district's overall student enrollment demographics, no statistically significant disparity was identified. Accordingly, a mitigation plan and additional disparity analysis are not included in this report.
