Dear Parent/Guardian,

This email confirms that your student has been enrolled in the **BVA Wellness Check Program** by your local school district.

What This Means

To ensure student safety and verify participation, state law (**Section 1748.1-A**) requires that virtual students be visibly seen and communicated within real time at least once a week. Your student must **turn on their webcam and microphone during their weekly scheduled 15 minute Wellness Check In session with their teachers. This information is on their student dashboard.**

Per state law (23 Pa.C.S. Ch. 63), school staff must report any visible signs of abuse, neglect, or harm.

Absence Protocols

Because student safety is our top priority, BVA enforces the following strict protocols for missed wellness checks:

- **1 Missed Check:** School District/Parent/Guardian immediately notified. Zoom meeting scheduled the next day.
- **2 Missed Checks:** Mandatory Zoom meeting with parent/guardian. If parent/guardian does not attend this Zoom Meeting, local authorities (school district or police) will do a home visit within 24 hours.

As a point of clarification the Wellness Check In program is not related to daily attendance.

Thank you for your partnership in keeping our students safe and connected. If you have any questions, please contact bvawellness@cciu.org

Sincerely,

-BVA Team
