### 2025–2026 Internet-Enabled Device Policy Enforcement Report

In accordance with New York State Education Law Section 2803 and Belfast CSD Board Policy 7315, Belfast CSD reviewed disciplinary actions resulting from student non-compliance with its internet-enabled device policy during the 2025–2026 school year.

Belfast CSD served 337 students during the 25-26 school year.

During the 2025–2026 school year:

- Thirty incidents of students violating the internet-enabled device policy were recorded.
- Twenty-eight different students violated the internet-enabled device policy.
- The 28 students represented approximately 0.08% of the students served.
  - 22 students were male.
  - 6 students were female
  - 27 students were identified as white
  - 1 student was identified as two or more races
  - No students were identified as Hispanic or Latino.
- No student was suspended solely for violating the internet-enabled device policy.

No statistically significant disparate enforcement impact was identified, and a mitigation action plan is therefore not required at this time.

Belfast CSD will continue to review enforcement data annually and monitor implementation of the policy for consistency and equity.
