

What is a Neighborhood Training Choir?

Vocal Music Class for Grades 1-2

Our Training Choirs are the first stepping-stone in PYC's choral education program. Training Choirs offer young singers the opportunity to develop their vocal abilities through a high-quality choral education program conveniently located within their community.

Young singers will **develop a healthy singing voice** while:

- playing musical games
- moving to music
- exploring their own creativity

Plus, participants are invited to sing in full-scale choral performances with over 150 other young musicians in grades 1-12 from across the Pittsburgh region.
