

CA Community Schools Partnership Program

A Historic Investment Continues

Building on prior investments, the 2026 budget provides \$1 billion ongoing Proposition 98 General Fund to expand the community school model to more school sites that have large concentrations of students from low-income families, English learners, and youth in foster care. To date approximately 2,500 schools in California have received community schools grants through the California Community Schools Partnership Program; this new funding would provide ongoing resources for these grantees and expand access to the model to thousands of additional high-need schools. The strong work of the school communities, LEAs, community partners, caregivers, students, school staff, CA Department of Education, State Board of Education, State and Regional Transformational Assistance Centers and the countless others involved in implementing the original grant program have showed positive impacts for young people and created the “why” for continued funding.

Who is Eligible?

- Any school site with over 65% unduplicated pupil count and 10 or more students
- Eligibility is determined by Fall 1 census pupil data submitted through the California Longitudinal Pupil Achievement Data System

What Happens Next?

- For 26-27 school year, Local Educational Agencies (LEAs) must opt in by November 1, 2026 for any eligible sites not already receiving the community schools grant, or any LEAs who are not current grantees
- Determine whether to opt in as planning or implementation
- Schools will be able to receive funding in the 26-27 school year
