Dr. Ayers shared the topic of the dinner meeting: 1) Governance

Chairman Durgin expressed appreciation for everyone's contributions to governance during the special meeting/workshop held on July 21, 2026. She noted that research indicates boards in high-achieving school districts consistently demonstrate stronger governance practices compared to those in lower-achieving districts. School districts that adhere closely to recognized governance best practices tend to show enhanced academic performance over time. Effective governance helps boards clarify roles and expectations, foster trust and transparency, make informed decisions, strengthen district leadership, and improve student outcomes.

The board discussed various governance improvements, including enhancing communication among board members, better preparation for major decisions, revisiting school board governance policies, establishing clear committee expectations, increasing meeting efficiency, creating a board calendar, improving the policy review process, and providing more updates on the school district and its schools. Additionally, the board reviewed potential dates for future workshops.

The meeting adjourned at 5:21 PM, with no action taken by the Board.
