

METAIRIE PARK COUNTRY DAY

School Year 2026-2027

Dear Parent:

Thank you for your interest in Metairie Park Country Day School. Our Admission Committee takes a comprehensive approach to evaluating each applicant. As part of the admission process, we interview every student during their visit and review school transcripts, teacher recommendations, and student writing samples. We also require all applicants to complete a standardized assessment.

Country Day partners with other ISAS schools in the admission process. Because ISAS schools share standardized testing results, your child only needs to test at one ISAS school. ERB scores may also satisfy the testing requirement, and students graduating from a local independent school may qualify for an exemption.

Test registration:

- Registration for the ISEE must be done online from the [ERB website](#) at least 2 weeks in advance (but preferably 3 weeks in advance).
- Select “Create Account,” and provide the requested parent information.
- Select “Add Student,” and provide the requested student information.
- Select “Search and Register” for Available Tests. You can find available testing using the date, school code (191782), or event code. Available testing options include: at home on-line, a local Prometric Test Center on-line and in-person paper.
- Country Day will offer the ISEE paper exam on the following dates:

Saturday December 5th
Code: YE2ZT2QF

Saturday January 23rd
Code: NVFVXVDV

- For Score Recipient, please enter “Metairie Park Country Day” or our code 191782. This is an important step! Please do not skip it.
- The fee for registration for in person paper exam is \$165. The fee for at home on-line is \$240. The fee for an in office online exam at a local Prometric Test Center is \$250.
- Using your account credentials, you will be able to manage various aspects of your test registration, including: printing your registration ticket, viewing your scores, and adding score recipients.
- If you are unable to register on-line or to pay by credit card, please let me know so we can assist you

For more information about the ISEE including sample questions, please visit: [ISEE Test Prep](#). Study guides are available for purchase on the ISEE website but are not necessary. We do recommend that your child becomes familiar with the test using the information on the ISEE website.

If your child requires special accommodations for testing, you will be given the option to select that upon creating an account. Carefully review the requirements for approval and all available options. Accommodations must be approved by ERB prior to registering for a test, and requests must be submitted at least two weeks prior to the test date.

On the day of testing, please arrive in our main building at the designated “Check In” time (8:30 AM). Each student should bring a few sharpened #2 pencils, his/her registration ticket, and a snack. If you have any questions, please do not hesitate to reach out.

Sincerely,

Cecilia Leon-Drago
