

BOARD RESOLUTION

CERTIFYING THAT ACADEMY OF ACCELERATED LEARNING, INC. IS IN COMPLIANCE WITH SCHOOL SAFETY REQUIREMENTS OUTLINED UNDER 19 TEXAS ADMINISTRATIVE CODE § 61.1031(c) and (d) AS PART OF ONGOING SECURITY AUDITS UNDER TEXAS EDUCATION CODE § 37.108(b)

WHEREAS, ACADEMY OF ACCELERATED LEARNING, INC. (AAL) is a Texas open-enrollment charter school and “school system” for purposes of 19 Texas Administrative Code (“TAC”) § 61.1031; and

WHEREAS, 19 TAC § 61.1031(c) requires a school system to implement specified safety and security standards at all instructional facilities owned, operated, or leased by the school system, including requirements relating to exterior-door numbering, primary entrances and visitor controls, exterior doors and glazing, windows, roof access, emergency access, communications infrastructure, panic-alert or equivalent alarm systems, and applicable 9-1-1 requirements; and

WHEREAS, 19 TAC § 61.1031(d) requires specified operating practices, including a governing-board policy for continued auditing of building access, weekly exterior-door inspections and reporting, accurate exterior- and interior-door numbering site plans, delivery and availability of site plans, at least twice-yearly maintenance checks, immediate reporting of identified deficiencies, and prompt corrective action; and

WHEREAS, 19 TAC § 61.1031(j)(1) requires a school system to annually certify compliance with subsections (c) and (d) as part of ongoing security audits under Texas Education Code § 37.108(b), to maintain the certification locally, and to provide supporting documentation to the Texas Education Agency (“TEA”) upon request; and

WHEREAS, the AAL Governing Board has received and reviewed, or has been provided a summary of, the administrative certification attached as Exhibit A, together with reports concerning AAL’s weekly exterior-door inspections, safety-and-security committee reporting, facility site plans, maintenance checks, corrective actions, and other records reasonably necessary to support this annual certification; and

WHEREAS, the AAL Governing Board desires to certify AAL’s compliance for the certification period identified above and to establish responsibilities for local retention, confidential handling, reporting, and production of supporting records;

NOW, THEREFORE, BE IT RESOLVED BY THE AAL GOVERNING BOARD THAT:

1. Annual Certification. Based upon the reports, records, and administrative representations presented to the Governing Board it hereby certifies that, for the certification period stated above and as of the date of adoption of this Resolution, AAL has implemented and is in compliance with the safety and security standards and operating requirements prescribed by 19 TAC § 61.1031(c) and (d) for all instructional facilities owned, operated, or leased by AAL. This certification is made as part of AAL’s ongoing safety and security audit process under Texas Education Code § 37.108(b).

2. Scope of Certification. This certification encompasses each instructional facility identified in AAL’s confidential facilities and audit records. The certification is supported by the Administrative Compliance Certification attached as Exhibit A and by underlying inspection, maintenance, mapping, training, communications, corrective-action, and committee records maintained by AAL.

3. Access-Control Policy Adopted and Reaffirmed. The Governing Board adopts and reaffirms the following policy: (a) during school hours, AAL shall conduct at least weekly inspections of all exterior doors of all instructional facilities to verify that the doors are closed, latched, and locked and cannot be opened from the exterior without a key, except as permitted by law; (b) the inspection findings shall be reported to AAL's safety and security committee and retained for review in the safety and security audit; (c) the findings shall also be reported to the principal at each facility, who shall address identified deficiencies and take reasonable action to reduce recurrence; and (d) nothing in AAL's access-control procedures shall be interpreted to discourage a parent, after proper verification as an authorized campus visitor, from visiting a campus the parent is authorized to visit.

4. Correction and Reporting of Deficiencies. The Superintendent or designee shall ensure that any identified deficiency is documented and promptly corrected. Any noncompliance that prevents or materially qualifies this certification shall be reported, as applicable, to the safety and security committee, the Governing Board, and TEA, consistent with 19 TAC § 61.1031(j)(1). No officer or employee is authorized to represent full compliance when known unresolved noncompliance exists.

5. Local Retention and TEA Production. The Superintendent or designee is designated as custodian of this Resolution, Exhibit A, and the supporting certification file. AAL shall maintain the certification locally in accordance with its applicable records-control schedule and shall provide the certification and supporting documentation to TEA upon request, subject to applicable confidentiality and secure-transmission requirements.

6. Confidentiality and Public Records. AAL shall protect any document or information collected, identified, developed, or produced relating to the monitoring of school safety and security requirements in accordance with 19 TAC § 61.1031(i), Texas Government Code §§ 418.177 and 418.181, and other applicable laws. Public materials and minutes should reflect adoption of this Resolution without disclosing facility-specific vulnerabilities, response capabilities, access-control details, maps, or other protected security information.

7. Authority to Execute and Implement. The Board President, Board Secretary, Superintendent and their respective designees are authorized to execute certifications, acknowledgments, cover letters, and other documents reasonably necessary to implement this Resolution; to respond to TEA requests; and to update internal forms and policy references to reflect any renumbering, relocation, amendment, or successor provision governing the same annual certification obligation, without altering the substantive requirement that compliance be verified each year.

8. Annual Review. The Superintendent or designee shall place this certification, or a substantially similar annual certification, before the Governing Board each year after completion of the administrative compliance review and before any deadline established by TEA. The administration shall retain evidence supporting each annual certification.

9. Effective Date; Severability. This Resolution is effective immediately upon adoption. If any provision is determined to be invalid or unenforceable, the remaining provisions shall fully remain in effect as permitted by law.

ADOPTED by the AAL Governing Board at a lawfully called meeting held on August 24, 2026, at which a quorum was present and acting throughout.

EXHIBIT A

AAL ADMINISTRATIVE COMPLIANCE CERTIFICATION 19 TAC §§ 61.1031(c);(d)

Certification Period:

[START DATE] 8/1/2025 through [END DATE] 8/31/2026

Instructional Facilities:

6711 Bellfort Ave, Houston, TX 77087

7419 Ashcroft Dr, Houston, TX 77081

The undersigned administrator certifies to the Governing Board that the following compliance review has been completed for the period identified above. Supporting records are maintained in AAL's secure local certification file and may be produced to TEA upon request.

No.	Compliance Category	Yes	N/A
1	Exterior door numbering and required alpha-numeric markings for instructional facilities, including applicable portable and modular buildings.	☒	()
2	Primary-entrance and visitor-management requirements, including visual identification, physical access control, and visitor check-in/check-out.	☒	()
3	Exterior-door locking, latching, automatic-closing, emergency-egress, re-entry, glazing, and permitted-monitoring requirements.	☒	()
4	Classroom exterior-entry visibility, adjacent-door glazing, ground-level window protection and locking, and roof-access controls.	☒	()
5	Emergency access through exterior master-key boxes or approved local-law-enforcement master-key access.	☒	()
6	Communications infrastructure, responder radio functionality, panic-alert/duress/equivalent alarm functionality, and applicable Kari's Law and RAY BAUM'S Act requirements.	☒	()
7	Weekly exterior-door inspections during school hours; reporting to the safety and security committee and facility leader; retention for security-audit review; and corrective follow-up.	☒	()
8	Accurate exterior- and interior-door numbering site plans for each instructional facility; availability in campus main offices; required electronic delivery; responder walk-through opportunities; and true-north orientation.	☒	()
9	At least twice-yearly maintenance checks of required facility components and communications systems, including documentation of results.	☒	()
10	Immediate staff reporting procedures for known functionality deficiencies and prompt remediation of identified deficiencies.	☒	()

Deficiencies and Corrective Action:

☒ No known unresolved deficiency prevents full certification as of the date below.

() Deficiencies were identified and have been corrected. Supporting corrective-action records are maintained in the secure certification file.

() Full certification cannot presently be made. The identified noncompliance has been or will be reported as required, and this Exhibit shall not be used to support a full-compliance board certification until corrected or otherwise addressed by TEA.

Administrative Certification: I certify that I have reviewed the available compliance records, that the information presented to the Governing Board is accurate to the best of my knowledge after reasonable inquiry, and that AAL has not knowingly omitted any unresolved noncompliance material to the certification required by 19 TAC § 61.1031(c), (d), and (j)(1).
