Owatonna
ADULT EDUCATION

SEPT 2026

CORE PROGRAMMING

Owatonna Adult Education helps adult learners build skills, reach their goals, and create new opportunities through four core areas: English Language Learning, GED Preparation, Career Pathways and Digital Literacy.

English Language Learning helps adults develop practical English skills for work, education, and everyday life.

GED Preparation provides academic support and preparation for the GED® tests, building both skills and test-taking confidence.

Career Pathways connects adult learners to career exploration, workforce credentials, employment, and continued education.

Digital Literacy helps adults build essential technology skills through Northstar Digital Literacy, preparing learners to confidently use computers, online tools, and digital resources.

Together, these hyflex programs help adults move forward with skills, confidence, and pathways to success!
