COURSE DESCRIPTION:

As a middle school, year-long elective, this class is built for beginners to explore their interests and develop their creativity. To get the most out of this often collaborative experience, students will actively participate, be supportive and gracious of fellow students, and have a growth mindset. Students will learn through exploring a variety of art mediums, art history, major artists, genre and more. Students may choose to pursue these courses further at the high school level. This class is designed to expose students to all of the components of creating works of art, from increasing their own creativity, use of mediums, motor skills, collaborative skills, displaying their works of art and articulating their thoughts and feelings about works of art. Students will evaluate pieces of art of their classmates to identify strengths and areas of improvement. They will be encouraged to develop an appreciation of visual art.
