UPLAND UNIFIED
SCHOOL DISTRICT

Information About Measure A

Preparing Upland Schools for the Future

Upland Unified School District (UUSD) is dedicated to ensuring we provide a safe and high-quality learning environment where each of our students can become confident, positive, and self-aware learners that are prepared for adult life. Across its 16 schools, UUSD provides nine Career Education Pathways that equip students with skills necessary for college, licensure, and employment.

Aging Classrooms and Facilities

Many District campuses were built in the 1950s and 60s and require repairs and upgrades to ensure all students have equal access to safe and updated educational facilities. Aging HVAC, plumbing, and electrical systems have failed several times in recent years. In the last two years alone, the District faced 602 roof leaks and 1,294 plumbing failures.

Unfortunately, the State does not provide funding for facilities, so local schools cannot maintain quality educational programs without locally controlled, voter-approved funding.

Repairing Schools and Supporting High-Quality Education

To ensure our community schools receive the repairs and updates they need to continue serving our community, Upland Unified School District Board of Education voted unanimously to place Measure A on the November 3, 2026 ballot. Measure A would cost $47.50 per $100,000 of a property's assessed (not market) value per year while bonds are outstanding. If approved by local voters, Measure A would provide $236.7 million in funding for our community schools to:

- Improve school safety and security systems, including cameras, alarms, and secure campus entry points
- Provide classrooms and labs for job training and career readiness after high school
- Repair or replace leaky roofs
- Make accessibility improvements for people with disabilities
- Upgrade inadequate and deteriorating plumbing, electrical, sewer and HVAC systems

Fiscal Accountability and Local Control

- ✓ All funds would be controlled locally for our schools only and could not be taken away by the State
- ✓ An independent citizens' oversight committee and mandatory annual audits would ensure all funds are spent as voters intended
- ✓ No funds could be used for administrators' salaries
