HB26-1050: Individual Learning Plans for Kindergarten Students

HB26-1050 makes the development of an Individual Learning Plan (ILP) optional for certain kindergarten students who meet minimum requirements at the beginning of the year.

Key highlights of HB26-1050

ILP May be Optional

A local education provider may choose not to provide an ILP when a student:

- Meets requirements on ***each*** of the 6 required domains of school readiness, ***AND***
- Meets the requirements on the interim reading assessment.

ILP Is Required:

A local education provider must provide an ILP when:

- A student does ***not*** meet requirements on KSR assessments ***and*** the reading interim assessment, ***OR***
- A student's parent or guardian requests an ILP.

Written Notice to Kindergarten Families

Local education providers must provide written notice to families that includes:

- Individual assessment results from the
  - kindergarten school readiness assessment(s), and
  - interim reading assessment:
- The purpose of the assessment tools,
- Transparency in how the information from the assessments is used,
- If applicable, a statement indicating that the local education provider is not required to provide, and does not intend to provide, an ILP based on the assessment results; and
- Information regarding the parent's right to request an ILP for their child.
