Completing Assignments:

Students should click on the folder that matches the day of the assignment they need to complete. Students **must complete all** assignments in the folder and will have **three days** after returning to school to submit their work. For each assignment, students must write the problem number and their answer on notebook paper. When required, students should show all work, such as calculations for math problems. Additionally, students are expected to complete one lesson each in reading and math on i-Ready. Please see the instructions below for more details.
