Ramona Elementary

Facilities Update

Path of Travel, Division of the State Architect (DSA) Review, and Next Steps

September 2026

Current Status

Ramona students and staff remain temporarily relocated.

- The District is maintaining school operations at receiving campuses.
- Facilities, architects, engineers, and risk management staff continue to evaluate the Ramona campus.
- No reopening date has been established while the repair approach is being developed.
- Staff continues to address concerns raised to the board

As a result of the Ramona relocation, the District added staffing support and expanded communication with families.

10 **additional campus assistants**

Hired to strengthen supervision and support at welcoming schools.

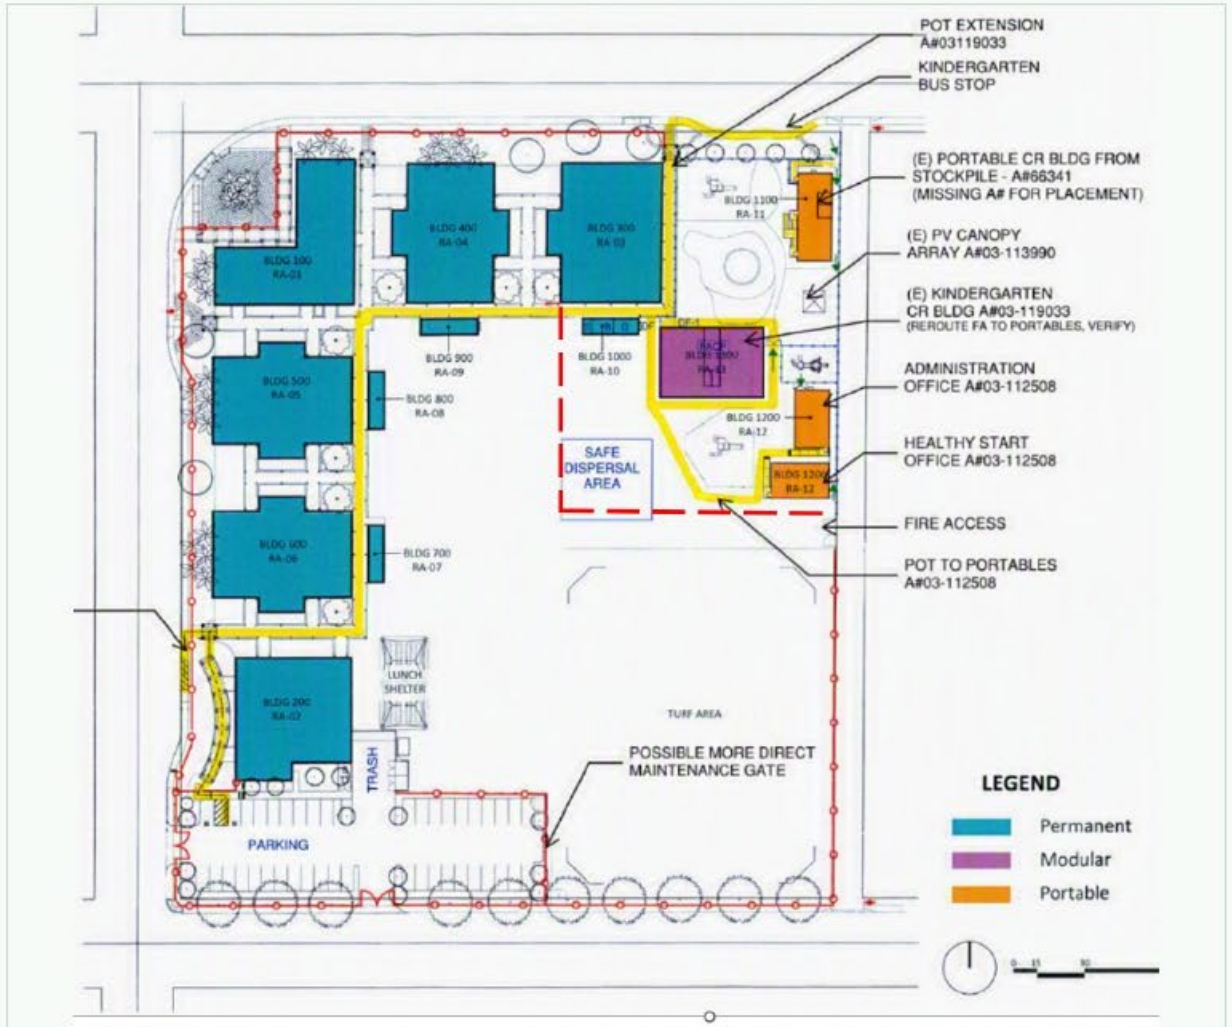
Continued focus

Supporting students and families while maintaining safe and orderly operations at welcoming schools.

Northwest Campus Access Update



NAC is studying a limited access path for the northwest portion of campus.

- Limited review from the Division of State Architect (DSA) is expected for accessibility, path of travel, fire alarm, fencing, and fire/life-safety items.
- Use of this area remains contingent on review, verification, and any required corrections.

What Limited Division of State Architect (DSA) Review Means

Access

Path of travel and accessible features must be verified.

Fire/Life Safety

Fire alarm, fire access, and fencing impacts must be reviewed.

Structural

Certain site elements are exempt from structural review.

Looking Ahead

Next steps

- Confirm the path of travel and required Division of the State Architect (DSA) review for the northwest campus area.
- Architectural review of Rough Order of Magnitude (ROM) pricing.
- Return with clearer repair options, cost information, and timeline implications.
- Continue to support students and families
