

WinCap

WinCap Timekeeping

Easily collect punches, pull hours into payroll, and provide a hassle-free experience to your staff. WinCap timekeeping quickly verifies, adjusts hours, and autopopulates calculated payroll with a single click.

Integrated Timekeeping

Eliminate the manual push and pull of data from your timekeeping system to your payroll system. Our timekeeping solution is built to work natively with WinCap software—providing instant data sharing and a consistent experience across your systems.

Flexibility & Precision

Easily assign multiple positions, pay rates, and clock-in methods to specific staff to accommodate extra-curricular hours, roles, and events. The system will automatically calculate accurate payroll across roles and responsibilities without manual intervention.

Full Transparency

Robust analytics and reporting gives you granular control over critical time, attendance, and payroll data. Real-time metrics let you view your staffing levels by location—giving you the tools to optimize your staffing placements quickly and efficiently.

Why Choose WinCap Timekeeping?

Data Accuracy

Real-time Metrics

Increased Accountability

Flexible Clock-in Methods

Manage Multiple Positions & Rates

Automated Approval Workflows
