_____ Lactaid
_____ Midol
_____ Excedrin
_____ Diphenhydramine (Benadryl)
_____ Other _____

PROCEDURES FOR ADMINISTRATION OF MEDICATIONS

- A new Parental Permission to Administer Medication form must be completed when the student enters a new school or there is a change in the approved OTC medication for a student. A new Prescription Authorization form is required if there is any change in the student's prescription medication or dosage.
- The high school health office has acetaminophen, ibuprofen, cough drops, and Tums. All other over-the-counter medications must be supplied by the parent to the Health Office and must be in a small original container.
- All prescription medications must be supplied by the parent to the Health Office and must be in a small original prescription container containing the student's name and the required dosage. Parents are responsible for assuring that an adequate supply of the medication is available in the Health Office.
- Any over-the-counter or prescription medications not picked up by the parent by the end of the school year will be disposed of by the District.
- Controlled Medication may not be transported by a student and will not be released to a student at any time, other than the dispensing of an authorized dosage.
- Only the School Nurse or other school personnel designated by the School Principal can dispense prescription or over-the-counter medicine to students. If the school nurse is unavailable, or if the student is on a field trip, the school

principal or his/her designee may assist the student in taking required medication(s) by making such medication(s) available as needed; and by observing the student as he/she takes or does not take his/her medication.

- The School Nurse, or other designated school personnel, will determine when it is appropriate to administer the OTC medication(s) identified above. The OTC medication will be dispensed in accordance with the specifications on the medication label, unless a note from a physician specifically authorizing a different dosage has been provided to the Health Office.
- Prescription medications will be administered at the times and in the dosages specified on the PRESCRIPTION AUTHORIZATION FORM COMPLETED BY THE MEDICAL PROVIDER.
- Parents are responsible for notifying the school nurse if their child took any medication before school.
- Please refer to the Merrimack School Board Policy; *Administering Medication to Students*

PARENTAL CONSENT TO ADMINISTER OVER-THE-COUNTER AND PRESCRIPTION MEDICATION

I have read and understand the above Procedures and the attached Merrimack School Board Policy. I authorize the Merrimack School District to administer any of the above indicated medications to my child during the school day or during school sponsored trips. I understand that my child must assume responsibility of reporting to the Health Office for the medication. I certify, to the best of my knowledge, that my child does not have an allergy or sensitivity, I will notify the school nurse immediately. This authorization shall take effect on the date listed below and shall stay in effect until I submit a new permission form or revoke permission in writing. I understand that the Merrimack School District does not assume responsibility for the effectiveness or adverse effects of any medications provided hereunder and I hereby release the Merrimack School District, the Merrimack School Board, and its agents and employees from all liability, claims, and causes of action for injuries related to the administration of or failure to administer any medication, except for injuries resulting from the district's intentional misconduct or gross negligence.
