Spot the Difference – Kindergarten Example Answer Key

There are 8 differences.

1. Sun → Cloud

Picture A has a smiling sun. Picture B has a gray cloud.

2. Butterfly → Bird

The butterfly is replaced by a blue bird sitting on the bench.

3. Duck → Swan

The duck becomes a white swan.

4. Frog → Water Lily

The frog on the lily pad is replaced with a pink water lily.

5. Mushroom Missing

The red-and-white mushroom is gone in Picture B.

6. Flowers Changed

Yellow flowers become pink flowers.

7. Tree Hollow → Bird's Nest

The tree hollow changes to a bird's nest on the branch.

8. Cloud Difference

The cloud arrangement/appearance changes between the two pictures.

Extension Questions

- Which difference did you notice first?
- Which was the hardest to find?
- How did you know something was different?
- Why are careful observations important in science?
