

MEET

JIMOTHY!

THE WILD RACCOON WHO CAPTURED OUR HEARTS! ♥

A real wild raccoon from Seattle, WA who became an internet sensation!

WHO IS JIMOTHY?

Jimothy is a wild raccoon who lives in the Ballard neighborhood of Seattle, Washington.

Videos of his unusual little body went viral, making him an internet sensation!

WHAT MAKES HIM DIFFERENT?

Experts believe Jimothy was born with short-spine syndrome. This means his spine developed differently, making his body much shorter than a typical raccoon.

But Jimothy doesn't let anything slow him down!

STILL WILD. STILL EXPLORING.
➤ STILL JIMOTHY! ♥

FROM WILD RACCOON TO INTERNET STAR!

Jimothy became so popular that people around the world fell in love with him!

His adventures and resilience inspire people of all ages.

RACCOON FUN FACTS!

SUPER-SENSITIVE PAWS

Raccoons have 5 nimble fingers on their front paws with an amazing sense of touch!

NIGHT EXPLORERS

Raccoons are most active at night.

NOT PICKY EATERS!

Raccoons are omnivores. They eat fruits, nuts, insects, eggs, frogs, crayfish and more!

GREAT SWIMMERS & CLIMBERS

Raccoons can swim and climb using their clever paws and strong back legs!

WILDLIFE NEIGHBORS

Raccoons live in forests, wetlands, suburbs and cities. They are very adaptable!

PLEASE RESPECT WILDLIFE ♥

Observe wild animals from a safe distance and never feed or try to touch them.

- ♥ Watch from a safe distance.
- ♥ Never feed wild animals.
- ♥ Keep wildlife wild!

Different.
Wild. Wonderful.

Sometimes the most interesting things in nature are the ones we don't expect!
