

How to use your menu.

Your new one-page interactive menus have all the information you need and more.

1. Switch between menus
2. Click to view all items with nutrition
3. Hover over item names to see nutrition details
4. View nutrition details, including Carb Counts
5. Filter your menu by allergens
6. Print your menu
7. Translate your menu

The screenshot displays the LINQ menu interface. At the top, there's a navigation bar with a date selector for 'July 2026'. Below this, a dropdown menu allows switching between 'Middle Schools', 'Elementary Schools', and 'High Schools'. The main menu area shows a grid of food items for each day of the week. A detailed nutrition panel for 'Grande Cheesy Nachos' is open, showing serving size, calories, and a list of nutrients with their amounts. To the right, an allergen filter is visible, allowing users to select or deselect various allergens like Peanut, Tree Nut, Milk, Fish, Shellfish, Egg, Wheat, Soy, Sesame, and Halal Friendly. The interface is designed to be user-friendly and informative, providing all necessary information in a single view.
