2025–2026 Internet-Enabled Device Policy Enforcement Report

In accordance with New York State Education Law Section 2803 and Ellicottville CSD Code of Conduct Ellicottville reviewed disciplinary actions resulting from student non-compliance with its internet enabled device policy during the 2025–2026 school year.

Ellicottville served 500 students in Prek-12th Grade.
During the 2025–2026 school year there were sixteen disciplinary actions:

- Fifteen students received disciplinary action for a total of eight incidents of non-compliance.
- Twelve students were male and three students were female.
  One student was in grade 8, 6 students in grade 9, one student in grade 10, two students in grade 11, and five students in grade 12.
- Fifteen students were identified as White
- No students were identified as Hispanic or Latino
- No student was suspended solely for violating the internet-enabled device policy
- One student received disciplinary action for a total of 2 separate instances.

Because only fifteen students received disciplinary action, the number of students in each demographic category is too small to support a reliable determination of statistically significant disparate enforcement. No statistically significant disparate enforcement impact was identified, and a mitigation action plan is therefore not required at this time.

Ellicottville will continue to review enforcement data annually and monitor implementation of the policy for consistency and equity.
