

August 20, 2026 via email

Dear Haldane Community,

We are pleased to share that significant improvements are underway in our transportation department. One of the key updates is the implementation of a new, more streamlined routing software, with the goal of enhancing our service efficiency.

To support this, we will be increasing the use of community bus stops and reducing door-to-door pickups. These changes will help us optimize routes, decrease student ride times, and improve overall safety and reliability.

We kindly ask that students arrive at their bus stops prepared to board at least 10 minutes prior to their scheduled pick-up time. Additionally, students requiring adult supervision for afternoon drop-offs should have a parent or responsible guardian waiting at the designated stop at least 10 minutes before the scheduled arrival.

Thank you for your understanding and patience as we transition to these new procedures. Please monitor your email regularly, as you will soon receive bus stop and transportation information specific to your family. If you have questions after receiving your details, please contact me: mgjordano@haldaneschool.org

Sincerely,
Melanie Giordano
School Transportation Operations Assistant
