

Release Pack Campus.2635 - August 2026

Academic Planning

Academic Programs tool rights (SIS-194757)

There was an issue with users needing additional tool rights to Edit Graduation Program functionality in order to add a new Academic program. This has been corrected. Users no longer need additional tool rights.

Path: N/A

Batch Program Assignment Wizard performance issues (SIS-198122)

Some larger batch queue Batch Program Assignment Wizard tasks were taking a long time to complete. Batch queue performance has been improved to address this issue.

Path: Student Information > Program Administration > Batch Program Assignment Wizard

Activity Registration

Stores, Activities, & Dependent Care .2635 Maintenance (SIS-199643)

Fixes have been made to address several issues in the School Store, Activities, and Dependent Care.

Path: N/A

Remove students from Activity Roster (SIS-201528)

Resolved an issue that prevented users from successfully removing students from an [activity roster](#).

Path: Student Information > Activity Registration > Activity Monitor

Assessment

Error when copying tests (SIS-200877)

Resolved an issue that caused an error when copying tests containing data saved in Step 3 - Map Data in the [Assessment Center](#). Test copy functionality now correctly preserves mapping configurations, including:

- Horizontal / Vertical mappings with and without child mappings
- Vertical mappings with different test and student identifiers
- Horizontal mappings with different student identifiers
- Columns mapped to multiple values

Users can now copy tests with existing mappings without encountering errors.

Path: [Student Information > Assessment Administration > Assessment Center](#)

Business Office Integrations

Business Office Synchronization - Check Campus Data ([SIS-199129](#))

Recovered functionality for the Check Campus Data button in [Business Office Synchronization](#).

Path: [System Settings > Business Office Integration > Business Office Synchronization](#)

Campus Instruction

Grade Book - Course Comments ([SIS-183226](#))

Previously, if a teacher entered a score and a Course Comment in the [Grade Book](#), the score would not save. This has been corrected.

Path: [Instruction > Grades > Grade Book](#)

Guest Access to Grade Book - Categories ([SIS-199638](#))

Previously, if a teacher had an Access to Section Start Date in the future, no users were able to use the [Categories](#) tool when accessing the Grade Book as a guest. This has been corrected so that other users with access to the Guest Grade Book are not restricted by a teacher's Staff History dates.

Path: [Scheduling & Courses > Courses > Grade Book](#)

Census

Mailing Labels Report not generating ([SIS-199205](#))

An issue where the [Mailing Labels Report](#) was not generating in the DOCX format has been resolved.

Path: [Census > Reports > Mailing Labels](#)

Census - Staff Account Automation Tool ([SIS-200669](#))

An issue in which [tool rights](#) were added to Calendar User Groups, resulting in errors in the Staff Account Automation tool, has been resolved.

Path: [User Management > Settings > Account Security Preference > Staff Account Automation](#)

Memory Leaks in DIS Resolved ([SIS-200976](#))

Changes were made to DIS to address potential memory leaks.

Path: DIS

Course or Section Setup

State-Defined fields not copied with Copy Course Master or Copy Course (SIS-194741)

When using the [Copy Course Master](#) or [Copy Course](#) tools, state-defined fields were not correctly copied to the new course master or new course record. This has been corrected.

Path: Grading & Standards > Course Master Information > Copy Course Master; Scheduling & Courses > Courses > Copy Course

Homeroom checkbox push down to sections (SIS-199491)

At the [course](#) level, marking the Homeroom checkbox automatically marks the Homeroom checkbox on the [section](#). It does not require the Push to Sections option to be performed.

- The value of the Homeroom checkbox on the course is sent to any new section of the course.
- The value of the Homeroom checkbox on the course is synced to any existing section of the course when the value changes on the course.

The entered value on the section overrides the value entered on the course.

Path: Scheduling & Courses > Courses > Course Information

Dependent Care

Dependent Care update (SIS-200376)

Ad Hoc filtering is now available for [Dependent Care](#) forms.

Path: Dependent Care

Dependent Care Add/Edit Authorized Pick Up Persons Correction (SIS-200948)

An issue preventing users from saving edited Authorized Pick Up Persons has been corrected.

Path: Dependent Care

Ed-Fi

Ed-Fi - Optimization of Ed-Fi Queue Queries (SIS-198851)

Code related to the recompiling of Ed-Fi queue queries has been optimized to improve SQL resource usage.

Path: N/A

Path: [FRAM > Tools > Eligibility Import Wizard](#)

Graduation

Graduation DIS Batch Sync Updates State Grad Record [\(SIS-197964\)](#)

The graduation DIS batch sync process was inconsistently updating state graduation records. This issue has been addressed to ensure more reliable and consistent updates to the state graduation records.

Path: [Student Information > General > Graduation](#)

Learner Planning

Special Ed and Counseling Team Members refresh fix [\(SIS-184755\)](#)

An issue where clicking the Refresh Census Information on the Team Members tool added all of the student's classroom teachers instead of only updating the census information for the selected person was fixed.

Path: [Student Information > Counseling/Special Ed > Counseling Team Members/Special Ed Team Members](#)

Special Ed Service Log Special Character fix (SIS-198312)

An issue where users were unable to enter the special characters #%&? into the [Special Ed Service Log](#) Comments field was fixed.

Path: [Student Information > Special Ed > Special Ed Service Log](#)

Special Ed Reports fix (SIS-200729)

An issue in which the Special Ed Service reports were not populating correctly when the "Non-Residents Student Only" checkbox was marked was fixed.

Path: [Student Information > Reports > Service Detail Report/Service Summary Report/Service Provider Detail Report/Service Provider Summary Report](#)

Special Ed Documents images in WYSIWYG text fields added (SIS-200763) [Enhancement]

All special ed users can now add images to WYSIWYG text fields in Special Education documents. These images also display on the printed documents. See the [Enable image upload in text fields for Special Ed Documents](#) article for additional information.

Path: [System Settings > Digital Repository > Digital Repository Preferences; Student Information > Special Ed > Special Ed Documents](#)

Special Ed Team Members fix (SIS-200950)

An issue in which the Educational Surrogate Parent checkbox on the [Special Ed Team Members](#) tool was not staying checked after saving has been fixed.

Path: [Student Information > Special Ed > Special Ed Team Members](#)

Special Ed eSignature Portal notification fix (SIS-201066)

An issue where the Special Ed Document [eSignature notification](#) on Campus Parent and Campus Student did not load the document after clicking the link was fixed.

Path: [Campus Parent or Campus Student > Bell icon > Messages](#)

Locator

Student Locator search improvement (SIS-196470)

The [Student Locator Wizard](#) search functionality has been updated to enhance matching for students with multiple names. This includes adding a LIKE prefix fallback to refine search results without impacting performance.

Path: [Student Information > General > Student Locator Wizard](#)

Messenger

Emails with Campus Fields send via Mailgun Batch Dispatch ([SIS-200056](#)) **[Enhancement]**

Emails containing [Campus Fields](#) can now be processed using Mailgun Batch Dispatch. Mailgun performs field substitutions during delivery, reducing processing time and improving performance.

Path: [Communication > Messenger > Messenger 2.0](#)

Remove green loading dots for In Progress messages ([SIS-200774](#)) **[Enhancement]**

When users send a message using the Send Now option in [Messenger 2.0](#), message information now appears immediately in the In Progress tab. The temporary green loading indicators have been removed, providing faster feedback and greater confidence that messages are processing successfully.

Path: [Communication > Messenger > Messenger 2.0](#)

Sent Message Log 2.0 ([SIS-201314](#)) **[Enhancement]**

[Sent Message Log 2.0](#) will now be available to all districts with Messenger.

Path: [Communication > Messenger > Sent Message Log 2.0](#)

Online Payments

Support M2 Reader USB Connection for CPP ([SIS-189319](#)) **[Enhancement]**

In-office payment processing using Card Present Processing will be enhanced to support connecting the M2 reader directly to a laptop or computer through USB connection and a windows desktop app, rather than requiring a mobile app. This will provide a more convenient payment solution for staff.

At this time, computers can be setup in [Device Management](#), but full functionality to process Payments using that device won't be available until a later release.

Path: [System Settings > Payments > Device Management](#)

Records Exchange

National Records Exchange and Student Records Transfer fix ([SIS-200953](#))

An issue in which the IEP Import Wizard in the [National Records Exchange](#) and [Student Records Transfer](#) tools was not importing plans was fixed.

Path: System Settings > Data Interchange Administration > Student Records Transfer/National Records Exchange

Scheduling

Full Responsive Courses added to schedule (SIS-182687)

Students were able to select and save a course scheduled on a [Responsive Schedule](#) day that had met its seat count. This has been corrected. Responsive courses that are at capacity cannot be selected on the Portal.

Path: Campus Student

Course Master - Unsaved updates message(SIS-189053)

Navigating away from a [Course Master](#) that was just modified and saved incorrectly displayed an unsaved data message. This has been corrected.

Path: Grading & Standards > Course Masters > Course Master Information

Scheduling Board - Copy Trial and Section Information (SIS-190356)

When [copying a trial](#), certain values on the [Section Information](#) editor were removed. This has been corrected. Section Information remains when copying the trial.

Path: Scheduling & Courses > Scheduling > Scheduling Board

Requests & Rosters performance optimization (SIS-197592)

Performance for [Requests & Rosters](#) has been optimized to handle large student populations when scheduling students into large classes.

Path: Scheduling & Courses > Scheduling > Requests & Rosters

Staff Planner and Course Planner access from Scheduling Board (SIS-198436)

Accessing the [Staff Planner](#) or the [Course Planner](#) from the Scheduling Board indicated the Trial was locked, and changes could not be made. This has been corrected.

Path: Scheduling & Courses > Scheduling > Scheduling Board

Scheduling Board Department selection (SIS-198820)

The Department side panel in the [Scheduling Board](#) was not displaying the department name. This was due to extra spaces, colons, etc., in the department name. This has been corrected.

Path: [Scheduling & Courses > Scheduling > Scheduling Board](#)

Students scheduled into courses without a scheduling rule (SIS-199144)

Students were being scheduled into skinnied courses without the necessary [scheduling rules](#). This has been corrected. Additional validations have been added to preserve assignments and submissions in the Grade Book.

Path: [Scheduling & Courses > Scheduling > Scheduling Board](#)

Section Information validations when deleting sections (SIS-199680) [Enhancement]

Additional validations and clear error messages now display when attempting to delete a section. Sections cannot be deleted when information exists in the following areas:

- Positive Attendance
- Teacher-Scored Assessments

Path: [Scheduling & Courses > Courses > Section Information; Instruction > Grade Book](#)

Requests & Rosters - Expand and Collapse Course Sections (SIS-200503)

Previously, selecting the "+" icon in Courses of [Requests & Rosters](#) did not expand the sections, and selecting the "-" icon did not collapse them as expected. This has been corrected.

Path: [Scheduling & Courses > Scheduling > Requests & Rosters](#)

Section Creation and open trial (SIS-200643)

The error message that appears when [adding a new section](#) with the active trial open has been updated to clearly explain why the section cannot be created. Previously, the message stated it was due to insufficient tool rights.

Path: [Scheduling & Courses > Scheduling Board](#)

Hiding State Code in Course Level (SIS-201167)

When [Course Master information](#) was pushed to courses, the State Code field was hidden at the Course level (data remained in the database). This has been updated to display the State Code field at the Course level.

Path: [Grading & Standards > Course Masters](#)

Cross-Site Enrollment Courses, Sections Unmarked when updated at State Edition (SIS-201229)

When a change is made to district or school fields that configure [Cross-Site Enrollment](#) in State Edition, the Cross-Site designation is removed from District Edition. This has been corrected.

Path: [Cross-Site Enrollment](#)

Section Roster Error - [Program Records, Flag Values](#) (SIS-201295)

In a previous release, the [Section Roster](#) was updated for a new look and feel. With that change, the data loading process was modified, causing issues with how the tool displayed data, including program records with missing flag values and duplicate print formats associated with student plans. These issues have been corrected.

Path: [Scheduling & Courses > Courses > Section Roster](#)

New York

New York Immunization Rules Update ([SIS-199319](#))

An additional In Progress DTaP rule was added to account for students older than 7 years who have received 2 doses of DTaP, with one dose administered within the last 6 months. See the New York [Immunization Rules](#) article for additional information.

Path: [Student Information > Health Administration > Vaccine Setup](#)

New York SIRS Course Instructor Assignment updates ([SIS-199859](#))

The list of Roles available in the [Section Staff History](#) tool was updated to include Primary ENL/Substitute and Primary SPED/Substitute.

Several data elements on the [SIRS Course Instructor Assignment](#) extract were updated to report the new teacher roles: Primary Instructor Indicator, Primary Special Education Indicator, Instructor Type Code, and Primary ENL Instructor Indicator.

Path: [Scheduling and Courses > Courses > Section Staff History; Reporting > NY State Reporting > SIRS Extracts > Course Instructor Assignment](#)
