I. Introduction

Professional learning is a shared responsibility that engages all adults across our organization. Because of its vital importance, professional learning is purposefully woven into every aspect of our district's work, with student growth and academic achievement at the heart of our efforts. To systematically address our inverted Multi-Tiered System of Supports (MTSS) data—where 80% of students currently perform below proficient or advanced levels—our district is pivoting from traditional remediation to a unified strategy of Learning Acceleration for All. Our professional learning opportunities are thoughtfully designed to build educator capacity in delivering high-rigor, standards-aligned Tier 1 core instruction, providing embedded coaching, and fostering active student engagement at every level.

To address our need for systems that accelerate learning for all students, the Ferguson-Florissant School District is committed to emphasizing training on the PLC process and effective data cycles. We are seeking an experienced professional learning provider to facilitate a series of professional learning sessions for our leaders and embedded coaching in our buildings. The selected provider will partner with district and building leaders to strengthen data-driven collaboration, intervention and acceleration planning, and building systems of support for all students.

II. Project Requirements

RFP Overview

The Ferguson-Florissant School District is soliciting proposals from qualified vendors to provide PLC coaching and training for district leaders and in 4-5 district buildings with a focus on acceleration vs. remediation. Problem of Practice
