

BPLA Charter Performance Report

Bettis Preparatory Leadership Academy has shown **positive overall improvement**, moving from a **Below Average** state rating in 2022–2023 to an **Average** rating in 2023–2024.

Key strengths:

- Improved overall state performance rating.
- Student progress was rated Average in 2022–2023.
- Enrollment increased from 111 to 128 students.
- Financial and board governance improvements were reported.
- Continued focus on STEM education and facility development.

Key areas needing improvement:

- Academic achievement remains below expectations, particularly in elementary performance and previously in middle school.
- Preparation for Success was rated Below Average.
- School Climate was rated **Unsatisfactory** in 2023–2024.
- Special education outcomes and student supports should remain a focus.
- Parent and community engagement can be strengthened.

Overall conclusion:

BPLA is moving in a positive direction, but the school needs a focused improvement plan centered on **academic achievement, school climate, special education, student growth, and preparation for future success**. Continued data monitoring and strong governance will be important to sustain progress and move the school from **Average toward Above Average performance**.
