WHAT'S ON OFFER?

At Elian's we are proud to present our after-school activities programme. Designed to complement the academic curriculum and encourage the personal growth of our students, this programme offers a wide variety of exciting and enriching options timetabled across the week in English and Spanish.

WHO ARE THE ORGANISERS?

Our programme is organised and coordinated by a team of professionals committed to the integral development of our students. This team includes teachers, sports instructors, elite athletes and administrative staff. They work together to ensure each activity is safe, educational and fun.

VARIETY OF ACTIVITIES:

We have a wide choice of extra-curricular activities, which are taught in English and Spanish. They cover areas including sports, arts, music, science, and technology, and are adapted to suit the interests and talents of our students.

HOW TO SIGN UP:

a) Read the brochure and select the activities that most interest you. You can choose one or several activities, as long as the schedules are compatible.

b) Registration form: Once you have decided on your activities, please complete the registration form, which will be sent to you by email.

c) Payment and confirmation: Payment for extracurricular activities will be included in the monthly school bill.

BEACH VOLLEY

Want to Play Beach Volleyball with an Olympian?

Now's your chance! Elian's offers you the unique opportunity to play beach volleyball coached by Raúl Mesa, an Olympian from Beijing and a European Champion.

Don't miss out on this fantastic chance to get involved in the sport everyone's talking about!

Elian's combines unparalleled facilities with top-tier professionals. It's the perfect time to start playing beach volleyball!

We bring the beach to Elian's! Thanks to our fantastic sand court — which is the only one of its kind in the area — everyone can enjoy playing the fast-moving sport of beach volleyball.

SPORTS

BALLET

LANGUAGE SPANISH

Ballet is an artistic discipline that combines dance, music, and body expression. Adapted to the age and abilities of children, ballet focuses on developing coordination, flexibility, balance, and artistic expression.

Classes include basic barre, centre, and diagonal exercises, teaching posture, jumps, and turns to the rhythm of classical music.

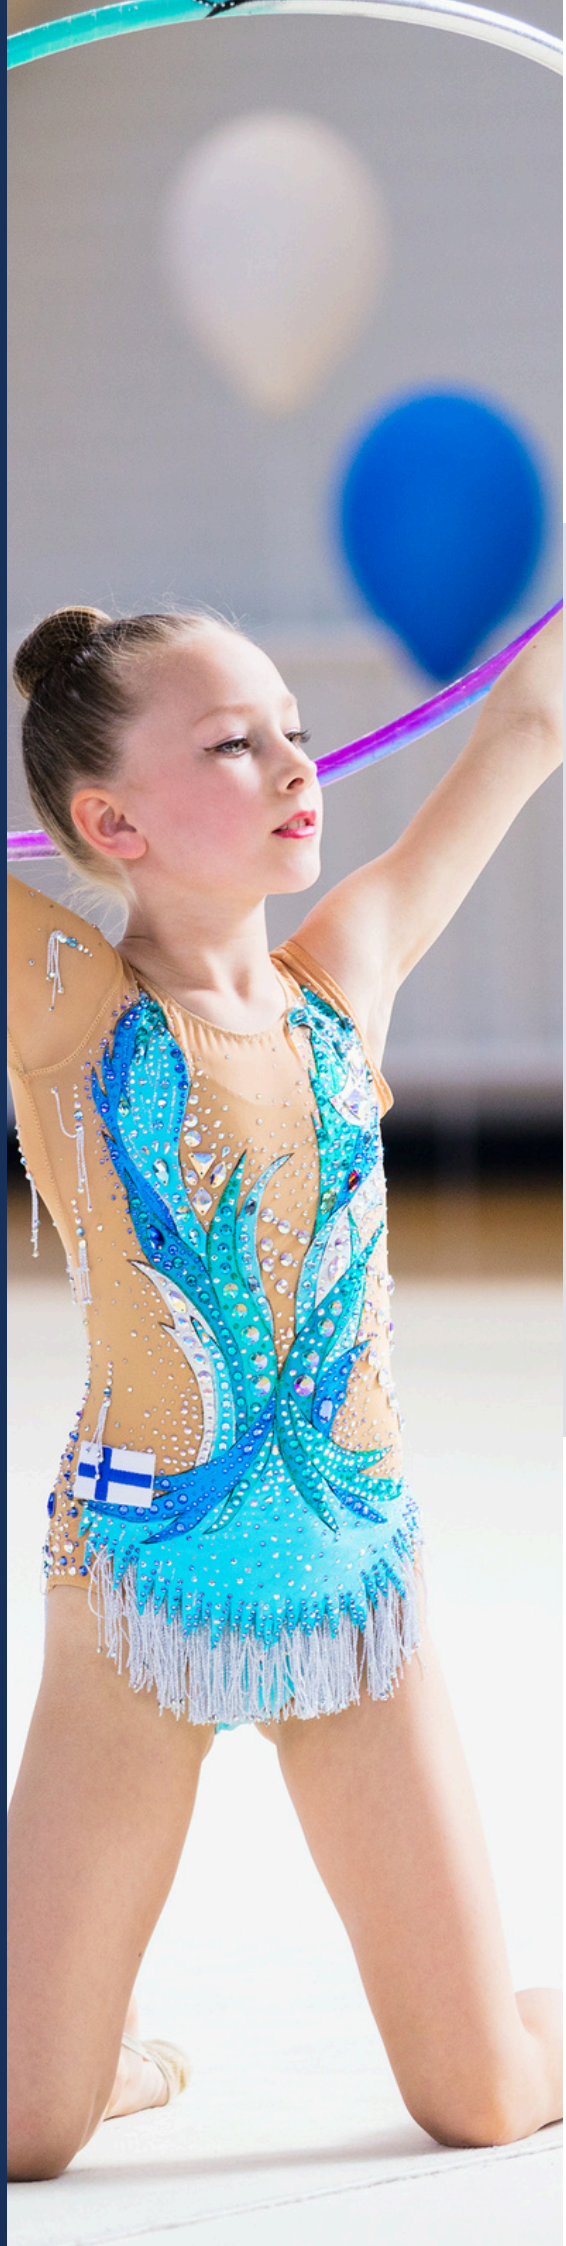

This activity not only promotes physical activity but also encourages creativity, discipline, and self-expression in children. It is an excellent way to support the holistic development of young children, strengthening both body and mind.

SPORTS

FOOTBALL

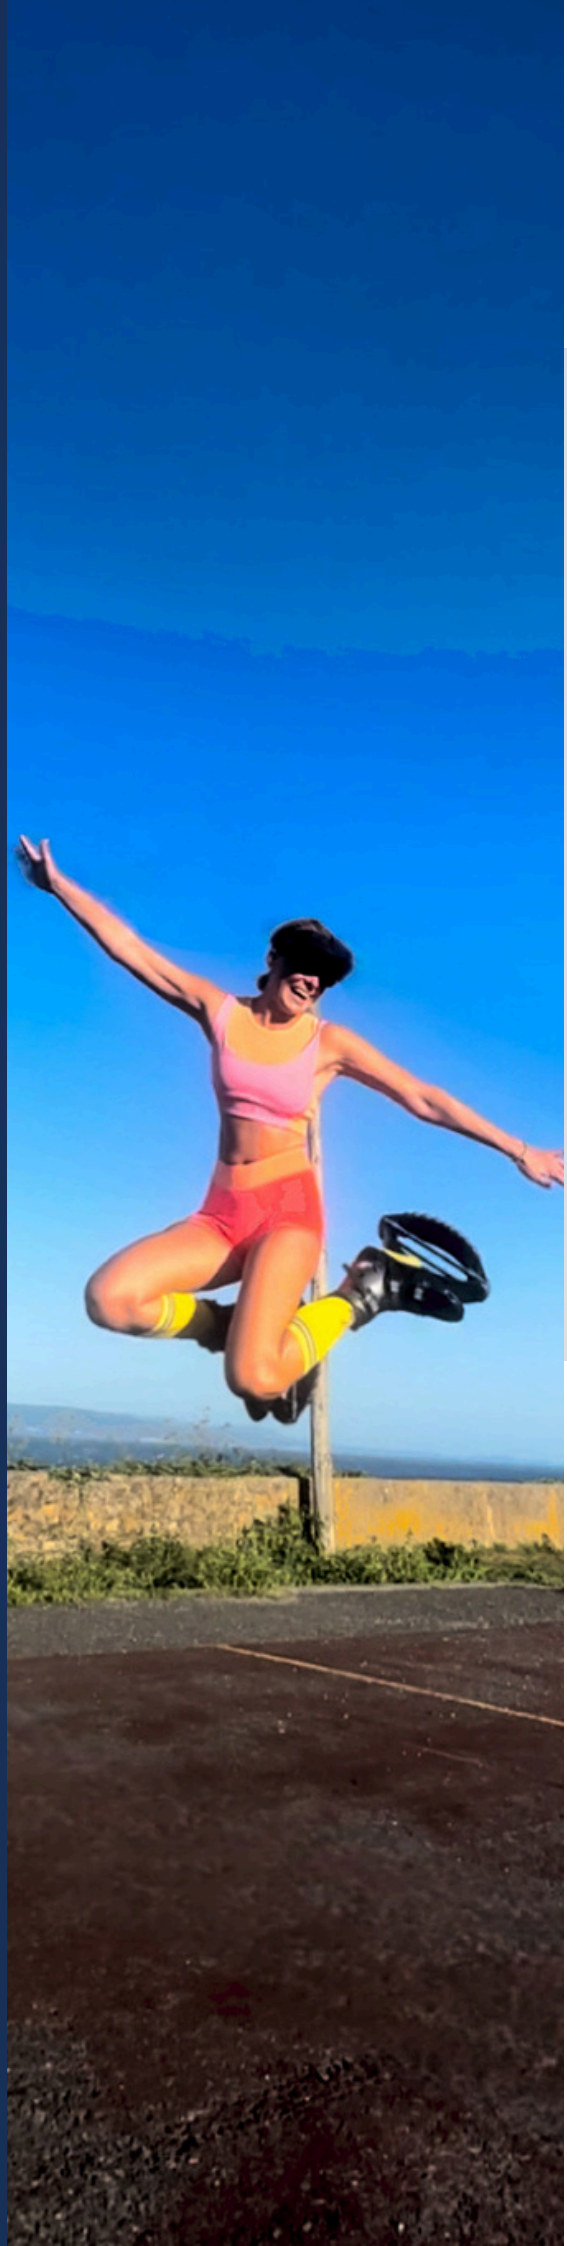

Our football club, is about so much more than just playing the game. It's designed to boost physical fitness, strength, and agility while teaching vital cooperative behavior both on and off the pitch. Players will develop respect for their teammates as they gain technical and tactical proficiency of the game.
Mastering essential techniques like ball control and positioning.
Understanding defensive and offensive strategies.
Preparing strategically for competitions.
Beyond the skills, we actively instill important values.
We champion fair play, smart decision-making, and independence on the pitch, helping to develop strong character.
Thanks to our structured approach and continuous feedback, we can tailor training to each child's specific level, ensuring everyone makes real progress in becoming a more confident and skilled player.

LIFE SKILLS & WELLBEING

FUNCHEF

LANGUAGE SPANISH

Discover our exciting new activity where children and young people have a fantastic time while learning to cook and eat healthily! This club goes beyond just recipes – it's designed to promote healthy eating habits and encourage independence around food.

We nurture creativity through cooking, teamwork, and the ability to identify and understand the ingredients on their plates. As well as developing practical cooking skills, we'll explore good nutrition and hygiene standards, giving children hands-on experience with food.

We also promote essential values such as equality, diversity, tolerance, and inclusion. Participants will learn self-control, sustainability, and recycling, along with respect for the environment, organisation, and coordination. All of this while having fun, appreciating the effort behind home cooking, and learning about resource management.

A complete experience to grow – both in the kitchen and in life!

EDUCATIONAL

CHESS

LANGUAGE SPANISH

Chess is a thinking sport, where you will develop your cognitive skills in the course of these absorbing, challenging games. You will learn how to think ahead, devise and apply a strategy and, above all, be patient. Scientific research shows that chess has very positive effects on the brain. Children find it a lot of fun to have their brains activated and to think of good moves and clever tricks to defeat their opponent. Through chess you will improve your concentration skills.

TIK TOK CHOREOGRAPHY

LANGUAGE SPANISH

This club taps directly into what kids are really into right now! We're taking viral dance trends and transforming them into a fantastic tool for physical and expressive development. We'll be designing and learning viral choreographies with proper, age-appropriate technical guidance, helping kids to seriously improve their coordination, rhythm, stage presence, and muscle memory. It's also brilliant for teamwork, boosting stage confidence, and building self-belief. Plus, we'll teach the basics of staging, recording, and simple editing to create cool video projects, which is great for digital responsibility and working together. Move your body, improve your coordination and experience the satisfaction of moving in perfect rhythm with your fellow dancers.

BROADWAY ON STAGE

LANGUAGE SPANISH

LANGUAGE ENGLISH

Our Broadway on Stage programme offers pupils a unique opportunity to immerse themselves in the exciting world of the performing arts, combining drama, singing and dance in a dynamic, creative and inspiring experience. Through songs, choreography, drama games and character work, our sessions encourage the development of physical and vocal expression, musicality, coordination and creativity, while also building confidence, communication skills, teamwork and the ability to perform with assurance on stage.

Throughout the year, participants will explore a variety of stories and musical numbers inspired by some of the greatest stage productions, discovering characters, emotions and performance techniques in a fun and engaging way. As the programme progresses, pupils will work towards preparing short performances and a final showcase, where they will have the opportunity to share everything they have learned with their families and enjoy the experience of performing before an audience, celebrating their dedication, enthusiasm and artistic growth throughout the year.

ARTS & CRAFTS

Discover the World of Creative Arts!

Creative Arts is an activity specially designed for pupils in Early Years and the first years of Primary School, where art becomes a fun and engaging way to create, discover and learn.

Through drawing, painting and arts and crafts, children will explore a variety of techniques, materials and surfaces, developing their imagination and artistic awareness. Sessions are tailored to the age and ability of each participant, combining creative activities that encourage learning through play and experimentation.

Throughout the programme, pupils will develop creativity, fine motor skills, concentration and self-confidence, while enjoying the freedom to express themselves and bring their ideas to life in a welcoming and inspiring environment.

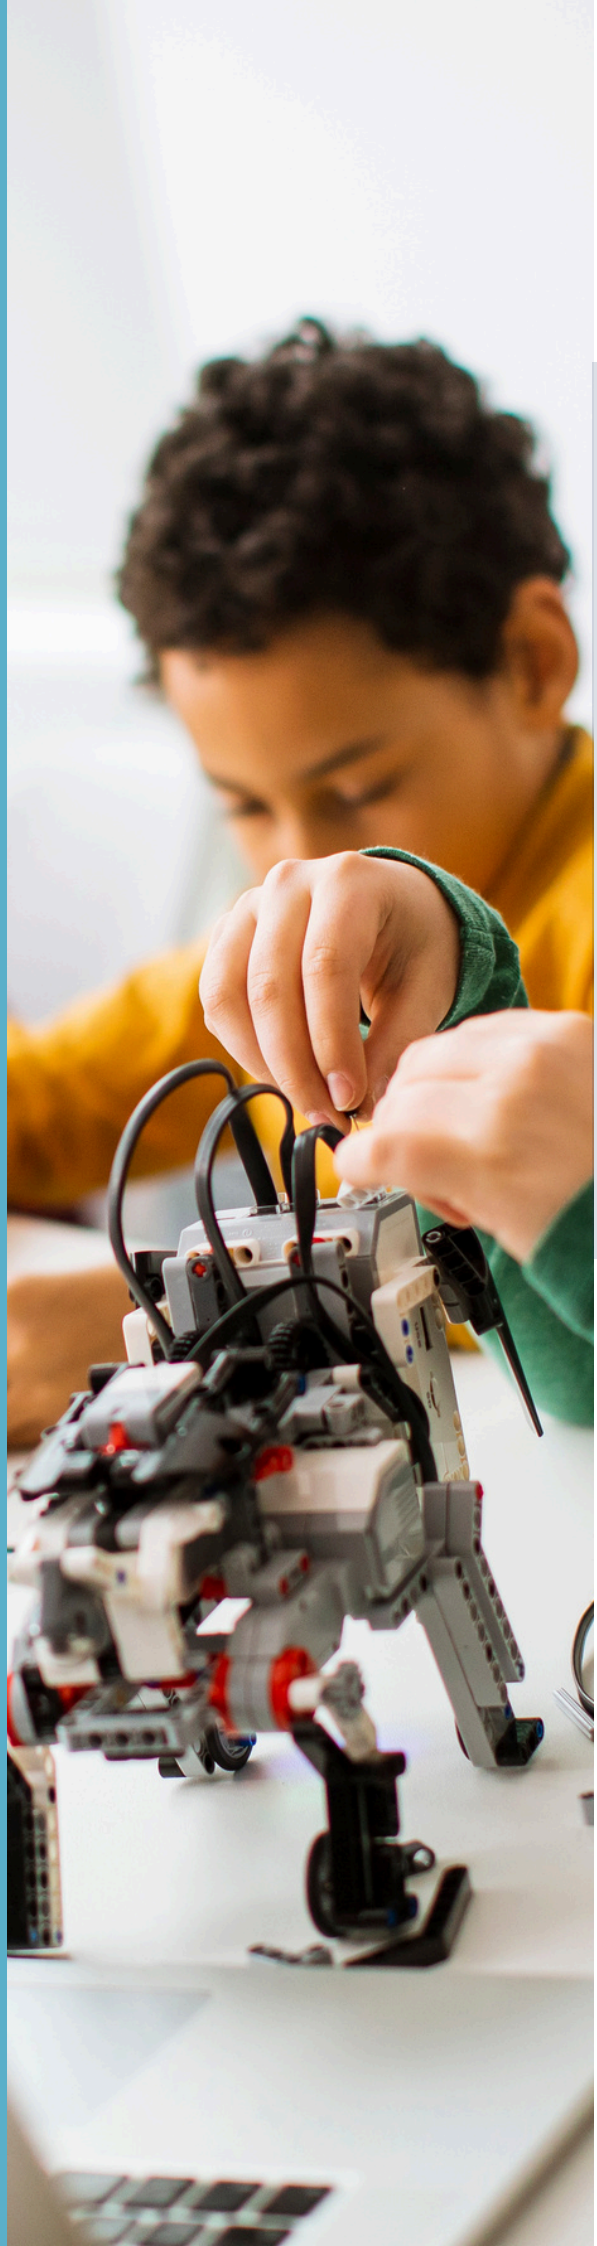

Create, imagine and bring your ideas to life!

TECHNOLOGICAL

ROBOTICS

Did you know that you can learn the principles of programming at a very early age? Introducing children to the world of programming and robotics gives them an insight into the world around them. They learn to think critically and logically and get satisfaction from the creative solutions they find. During robotics lessons, children have fun discovering the functionalities of a robot. They can even build their own robot to practise movements and activate sensors!
