Tech Integration Menu

READY TO SERVE YOU!

I'M NOT GOING TO ADD TO YOUR FULL PLATE! I WILL HELP YOU MANAGE WHAT'S ON YOUR PLATE. CHOOSE FROM A VARIETY OF MEAL PLANS TO BEST SUIT YOUR APPETITE.

APPETIZERS

before class

Co-Planning: Assist in finding technology resources that meet the needs of your classroom and curriculum. Plan a lesson or series of lessons integrating technology together.

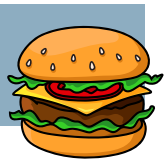

Curriculum Support: Assist with designing technology choice assignments, projects, and activities.

Assessment Tools: Use our applications to make your assessments equitable and save time grading & returning feedback.

Differentiation, Accessiblity, & Inclusion: Assist with applying technology to modify activities, lessons, and assessments so they're accessible & all students are included.

ENTREES

during class

Classroom Assistant: Serve as an extra pair of hands or eyes while you try out new technology during a lesson.

Co-Teaching: Collaboratively plan and teach a lesson together to help make you comfortable using the technology in your classroom. I can also work at one of your centers/stations.

Lesson Demonstration: I will model a lesson using technology in your classroom while you observe.

DESSERTS

after class

Class Newsletter: Create digital class newsletter for better guardian communications.

Professional Development: Integrating technology into teaching and learning in order to increase student achievement and student engagement.

EXTRAS

any time

Organizational Tools: Provide time-saving resources and web-applications to leverage teacher productivity. Drive, Gmail, Classroom, Calendar, etc

Tech Integration Conversations

Whether you are new to the technology world or you're a master of software applications and student engagement, I am here to help you use technology with intention to enchance and transform your curriculum and student success. Together our goal is to improve student achievement by using the tools of technology.

Students have too much screentime at home.

It's about the **quality** of the screentime. They shouldn't be denied educational experiences at school.

I can't add one more thing to my plate.

It's a **swap**! I'll help you trade out one for the other.

Kids are good at technology.

Very little correlation between effective technology use & **using technology well for learning.**

All of my presenations are done.

I'ts not just student consumption; it's **creativity and expression**. Also, do your presentations work for **ALL students**?
