

Naperville North High School Earth Science Syllabus 2026/2027

Teacher: Kristen Richardson **Email:** karichardson@naperville203.org **Phone:** 630-420-6513

Office: Science Office (Room 202)

Department Chair: Jim Konrad jkonrad@naperville203.org

D203 Profile of A Learner	Profile of a Learner guides our efforts in creating educational experiences that are relevant, engaging, and impactful and outlines the key competencies and descriptors our community has identified as essential for our students: Adaptability, Communication, Critical Thinking, Learner's Mindset, Global Citizen.	
Department Mission	At Naperville North High School, our mission is to provide high-quality, innovative, and engaging science education that fosters deep understanding, critical thinking, and a lifelong passion for scientific inquiry. Grounded in the Next Generation Science Standards (NGSS), our curriculum and teaching approach empower students to develop the knowledge, skills, and attitudes necessary to thrive in a rapidly changing world. We are dedicated to nurturing curiosity, collaboration, and scientific literacy, preparing our students to become informed citizens who can contribute to solving local and global challenges through the application of scientific principles.	
Course Description	In this course, students explore the interdependence of Earth systems including geologic features, weather, climate, and living organisms. Using a chronological approach, students investigate changes in the Earth and atmosphere and identify significant events that have shaped our planet within each of the major geological time periods. Students also identify the role of human activity and the management of natural resources in this NGSS-aligned course. <i>Prerequisite:</i> successful completion of 2 years of science.	
Course Textbook & Resources	No Text, Supplied readings and resources on canvas.	
Course Standards & Weights	Academic: Semester 1: Unit 1 Targets Unit 2 Targets Unit 3 Targets	Semester 2: Unit 4 Targets Unit 5 Targets Unit 6 Targets
	SEL: 1C.4b. Apply strategies to overcome obstacles to goal achievement. 2B.4b. Demonstrate respect for individuals from different social and cultural groups. 3B.4a. Evaluate personal abilities to gather information, generate alternatives, and anticipate the consequences of decisions.	
Units of Study:	Semester 1 - Unit 1: Formation of our Solar System in the Hadean(Solar System & Early Earth) - Unit 2: Formation of Continents in the Archean (Minerals, Mining, & Igneous Rocks) - Unit 3: Plate motion to the Proterozoic and to the explosion of life the beginning of Phanerozoic (Plate Tectonics & Volcanism) Semester 2 - Unit 4: Continued Evidence of Plate Motion (Earthquakes & Mountain Building) - Unit 5: How rock records gave us the Geological Timeline (Metamorphic, Sedimentary Rocks in the Cenozoic) - Unit 6: Cenozoic Features and Positions affect our daily lives (Climate, Oceans & Weather)	
Grade Calculation	Students will be provided with multiple and varied opportunities to demonstrate mastery of learning standards. Although varied in content, all courses will include examples of practice and evidence of learning:	

Naperville North High School Earth Science Syllabus 2026/2027

Teacher: Kristen Richardson **Email:** karichardson@naperville203.org **Phone:** 630-420-6513

Office: Science Office (Room 202)

Department Chair: Jim Konrad jkonrad@naperville203.org

Definitions

- **Evidence of Learning:** Tasks or assessments where feedback is provided to the student and considered evidence of a student's level of proficiency on a given standard or skill. This may include, but is not limited to formative tasks that provide insights on areas for growth as well as summative tests, projects and/or performances. In this course, specific examples include: Summative Quizzes, Tests, Projects, and Lab Practicals.
- **Practice:** Tasks that are connected to course standards and learning targets that promote the development of skills and/or knowledge that will be assessed, but where feedback is not provided. This may include, but is not limited to daily readings, note taking, practice exercises and tasks essential to the learning process. In this course, specific examples include: Activities, lessons in the workbooks, homework checks on formative, and daily assignments.

Grading Disbursement

Semester grades for all classes (prior to the final exam) will be calculated by a weighted average. As part of the calculation for the overall semester grade, final exams/projects will not exceed 15% of the semester grade.

A = 100-90%, B = 89-80%, C = 79-70%, D = 69-60%, F = 59-0%

Semester Grade:

- Coursework = 85%
 - Evidence of Learning = 90%
 - Practice (will not exceed 10%) = 10%
- Final Exam = 15%
 - *Final Exam Format: Final Exam Format: Final Exam Format:* both Semesters final will be split with a Project and Multiple Choice Final Exam(Exam covers units from that semester).

Grading Practices

Grades communicate each student's progress toward mastery of goals/standards for the course.

- Infinite Campus Symbols/Comments:
 - A score of "Missing" (M) will indicate an assessment has not been turned in and the comments section will include a specific date by which students can still submit. After that date, a zero (0) will be recorded.
 - Any score may also have a comment indicating the due date, turned in, late, reassessment eligibility including the timeline and/or reassessment final scores.
 - A zero indicates that no attempt was made by the student. If a legitimate attempt is made on an assessment and practice work has been completed in a consistent and timely manner (*completing 85% of practice listed in Infinite Campus.*), a score of 50% will be the lowest possible grade.
- Late Work:
 - Evidence of Learning work submitted after the original due date cannot be penalized more than a total of 10% and can be submitted for credit within 5 school days after the original due date.
 - Practice Work is not accepted for credit after the due date.
- Other:
 - No extra credit will be issued.

D203 AI Belief Statement

At Naperville North High School, we strive to build a learner's mindset in all students, developing qualities such as adaptability, communication, critical thinking, and global citizenship. Generative Artificial Intelligence (AI), offers new opportunities to engage with important technology relevant to the future that also raises significant educational considerations. AI tools provide unique ways to engage students in the learning process, hence we encourage our staff to guide students in using AI responsibly. Teachers have the authority to establish guidelines for AI use in their classrooms, setting clear expectations for how AI can be used on learning tasks. Concurrently,

Teacher: Kristen Richardson **Email:** karichardson@naperville203.org **Phone:** 630-420-6513
Office: Science Office (Room 202)
Department Chair: Jim Konrad jkonrad@naperville203.org

Academic Integrity Code

we recognize that reliance on AI risks replacing genuine student engagement and original thought, undermining the attributes we aim to cultivate. Striking a balance between leveraging AI tools effectively and maintaining educational standards is crucial to the learning experience of each student.

District 203 students are challenged to address the academic process enthusiastically, diligently, and most importantly, honestly. It is the responsibility of our students, teachers, and administration to uphold the fundamental academic values of honesty, responsibility, fairness, respect and trust. The integrity of our district's academic programs is built upon these principles.

Academic integrity violations include cheating, plagiarism, self-plagiarism or copy infringement, obtaining or providing an unfair advantage, using a writing service and/or AI in place of original work unless specifically authorized by staff, falsification of documents, unauthorized access to records, and inappropriate collaboration, whether intentional or unintentional. The classroom teacher and administration will collaborate and exercise professional judgment in determining academic integrity violations.

Please refer to the NNHS Handbook for more information.

Technology Expectations

- **Cell phones:** Students will be expected to store their cell phones in a phone holder or designated classroom location throughout each class period as communicated by each teacher. Cell phones should not be seen or heard in the classroom setting. Appropriate use of cell phones is allowed during passing periods, during study halls, at lunch, before and after school. Please note that cell phone use is strictly prohibited in locker rooms and restrooms at all times.
- **Ear buds and headphones:** The use of ear buds and headphones is strictly prohibited in the classroom unless permission has been granted by the teacher. Ear buds and headphones should not be seen or heard in the classroom setting. For safety reasons, students should also be able to hear announcements, alerts, etc. at all times and, therefore, students are permitted to use one ear bud or headphone during passing periods, at lunch, before and after school.
- **District issued Chromebooks:** Students are required to use their District issued Chromebook and will not be permitted to use personal laptops or devices in the classroom setting. Student personal devices are not protected by district systems and put student safety and the safety of our network at risk. Additionally, student personal devices are not enabled with applications and programs necessary for administration of state and AP assessments.

Reassessment Policy

The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient. Higher reassessment grades will replace the original assessment score, but will not exceed 85%.

- Practice work is not eligible for reassessment.
- Evidence of Learning work may be eligible for reassessment. Refer to the chart below for eligibility:

☐ The assessment included multiple opportunities for feedback and improvement in the process for the final product OR formative assessments are aligned to	☐ There was timely and consistent completion of practice work and formative assessments. ☐ A one-time performance on an assessment
---	---

Teacher: Kristen Richardson **Email:** karichardson@naperville203.org **Phone:** 630-420-6513
Office: Science Office (Room 202)
Department Chair: Jim Konrad jkonrad@naperville203.org

standards, allow students to practice in the same assessment format, and gain feedback for improvement before the summative assessment.	does not reflect the student's level of proficiency leading up to the assessment. ☐ Summative assessment score is below 85%.
Not eligible for reassessment	Eligible for reassessment if all three statements above are true.

Reassessment Parameters:

- The reassessment opportunity will require designated learning experiences that demonstrate readiness as assigned by the teacher.
- Reassessments MUST be completed within 5 school days of the student receiving feedback unless otherwise determined by the instructor. The reassessment deadline should be communicated in an IC comment.
- The final reassessment score will be capped at 85%.
 - Project-Based that include multiple opportunities for feedback and improvement in the assessment process will represent multiple attempts and be considered not eligible for reassessment.
 - Laboratory Based Activities are not eligible for reassessment. Laboratory activities develop learning of current content to prepare for an assessment and a deeper understanding of science. The limitation of supplies, materials, and time also hinders the opportunity for reassessment.

Student Communication

- Students are encouraged to communicate with teachers regarding questions.
- Teachers make every effort to respond to emails and phone calls within 24 hours during the workweek.
- The best way to communicate with teachers is through email; however, if you haven't received a response within 48 hours, please resend the email or call their voicemail. Your email may have been filtered.

Additional Resources for Support

- You can utilize WIN or make an appointment with your teacher should you need additional instruction or support in learning material.
- You can attend peer tutoring in the Lit Center during lunch periods to receive extra support or to work on assignments.
- You can drop in to work with a peer tutor during lunch periods or before school in the Literacy Center.

Parents or Guardians Partnership

Naperville North believes in a collective partnership with parents/guardians which provides students the best opportunities for success.

Some ways parents/guardians can support their student's learning are:

- Actively check Infinite Campus for their student's grades.
 - Infinite Campus is a tool to progress monitor student work until the final course grade is posted.
 - Monthly progress grades are posted and represent the current grade of a student in the course at that moment in time.
- Discuss missing assignments, reiterate due dates, help organize folders, materials, assignment notebooks, and review upcoming projects and assessments.
