E-Learning Day Expectations

Hello families! In the event of severe weather or resulting in school closure an e-learning day will be called. These days are designed for students to complete on their own and there will be **no live lessons taught**. Each student has been issued a laptop. These laptops have been used daily in our classrooms.

For each day an e-learning day is called, they are to complete one day of work. For example, if only one day is called, they will need to complete Day One in the file. Students will work throughout the day on the assignments on their own. We have already downloaded Day One through five onto your child's laptop. It is Labeled "E-Learning Materials and Instructions" and located on their desktop and in their files.

Our expectations are that students will complete the work and return by the next in-person school day. Any paper/pencil work should be completed in the students handwriting with their name on each page.

There are options for some of the paper/pencil work to be replaced with online work. The online work will record the time they spend working on the assigned program. If students do not meet the time requirement they will not receive credit for that assignment that day. If your child chooses the online option, make sure you let your teacher know this on the work checklist they turn in.

We will be available through Parent Square from 8:00am-11:00am and 12:00pm-3:00pm during the e-learning day for any questions or help.

Thank you,

The Second Grade Team
