Cheeky Chipmunks

Written and Photographed by Sandie Lee

'*Chuck-chuck-chuck.*'

What's that sound? It's coming from an old log. As you search the sound changes.

'*Chip-chip-chip.*'

Now it's fast and high-pitched. Suddenly, there's a rustling of leaves. With lightening speed it zips past. It disappears down a hole. What was it? A chipmunk.

Chipmunks live all over the United States and Canada. They are small and have black and white stripes down their backs. They dig long tunnels underground. At the end of the tunnel is a bed of dried leaves and grass. They sleep here all winter long. Chipmunks have cheeks that are big and stretchy so they can carry food back to their home. They like to eat nuts, berries, acorns and seeds. When they get nervous, they make a *chuck-chuck* or *chip-chip* sound.

1. List three facts you learned about chipmunks from this article.

_____

_____

_____

2. When do chipmunks make a chip-chip or chuck-chuck sound?

a. When they're happy. **b.** When they're eating.
c. When they're lost. **d.** When they're nervous.

Singular and Plural Nouns

A singular noun names one person, place, or thing.

example: A lizard crawls on top of the rock.

There is only one lizard in the sentence, so the word lizard is a singular noun.

Also, there is only one rock in the sentence, so the word rock is a singular noun too.

A plural noun names more than one person, place, or thing

example: Two rabbits ran through the trees.

There is more than one rabbit, so the word rabbits is a plural noun.

Also, there is more than one tree, so the word trees is a plural noun too.
