

August 28, 2026

Dear Parents,

My name is Jacqueline Johnson, and I will be your child's Special Education teacher for the upcoming 2026-2027 school year. I hope that you and your family enjoyed your summer. As your child's special education teacher, I am looking forward to working with you to make this a successful school year. I cannot wait to begin working with your child after they spend time in their homerooms working on community building activities. I have already started to review your child's portfolio to become familiar with their individual learning style, interests, and needs.

I would like to share a few things about myself. I received a Bachelor of Arts in Elementary/Special Education from Rider University. I also received my Master of Education with Reading Specialist certification at Holy Family University. I earned my Master's +30 as well as my National Board Certification. This will be my 17th year as a Special Education teacher in Central Bucks School District. I have three children. My oldest daughter begins fifth grade this school year, my second daughter begins second grade, and my son will be in his second year of preschool. I love spending time with my family at the beach, running, reading, and creating photo books.

I believe that our continuous partnership will be the key to success for your child. Please feel free to stop by my classroom (Room 121) for a Meet & Greet on Thursday, September 10th from 5:30-6:00 (prior to the Kindergarten/First/Second Grade Back to School Night). I am very excited for the school year ahead of us, which will be filled with engaging and unique learning experiences. I look forward to working with you and your child. As partners in their education, I know that your child will grow and excel this upcoming school year.

Sincerely,

Jacqueline Johnson
